GERMAN SHEPHERD NATION

15 Ready-to-Use AI Video Prompts
Each one built for a 25-second Facebook Reel

Main prompt - Shot-by-shot timing - Music - Caption + Hashtags

How to use this pack

Hook first	The first 3 seconds decide whether people keep watching - always open with motion, eyes or a surprise.
Copy the full prompt	Paste the combined prompt (Main + Shots + Style) into your AI video tool: Veo, Sora, Kling, Runway, Hailuo or Pika.
Tools with short clips	If your tool only makes 5-10s clips, generate each shot as its own clip and join them in CapCut for a 25s Reel.
Consistent dog	Keep the same description (e.g. 'black-and-tan German Shepherd with amber eyes') in every shot so the dog looks the same.
Post smart	Add the caption + hashtags, post as a Reel at 9:16, and reply to comments in the first hour.
