A Normal Morning With My German Shepherd

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

5 everyday activities in one morning: wake-up call, breakfast, bringing the leash, backyard fetch, water and flop. Feels like a real owner filmed their dog's routine.

TIMELINE

0-5s	Wake-up call
5-10s	Breakfast
10-15s	Brings the leash
15-20s	Backyard fetch
20-25s	Water and flop

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Wake-up call): Bedroom, early morning, curtains half open, dim grey-blue daylight. Camera is the owner's point of view lying in bed. The dog rests its chin on the edge of the mattress and stares, then gives a soft huff and nudges the owner's hand with its nose. Sound: quiet room, the dog's huff, owner's sleepy laugh saying "okay, okay". 5-10s (Breakfast): Small kitchen, morning window light, beige tile floor. The dog sits impatiently beside a steel bowl, front paws tapping, while the owner's hand pours dry kibble from a bag. The dog starts eating right away, a few kibbles spill on the floor. Sound: kibble rattling into the bowl, crunching, collar tag clinking on the bowl. 10-15s (Brings the leash): Hallway by the front door, shoes on the floor. The dog trots in holding a red nylon leash in its mouth, drops it at the owner's feet, looks up at the camera with tail wagging and does a small excited hop. Sound: tags jingling, claws clicking on the floor, owner says "you want to go out?". 15-20s (Backyard fetch): Ordinary backyard, overcast daylight, uneven grass with a few bare patches, wooden fence, garden hose on the ground. The owner's hand throws a worn green tennis ball, the dog sprints after it, grabs it and runs back, dropping the slobbery ball right in front of the camera, panting. Sound: birds, distant traffic, heavy panting, owner says "good boy". 20-25s (Water and flop): Back in the kitchen. The dog drinks noisily from a water bowl, water dripping from its chin onto the tiles, then flops down on its side on the cool floor, tongue out, panting, and glances at the camera. Sound: loud lapping water, dripping, a big tired sigh.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Wake-up call

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. Bedroom, early morning, curtains half open, dim grey-blue daylight. Camera is the owner's point of view lying in bed. The dog rests its chin on the edge of the mattress and stares, then gives a soft huff and nudges the owner's hand with its nose. Sound: quiet room, the dog's huff, owner's sleepy laugh saying "okay, okay".

Clip 2 | 5-10s | Breakfast

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
