Just a Walk in the Park With My German Shepherd

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

An ordinary late-morning park walk: strolling the path, sniffing a tree, staring down a squirrel, rolling in the grass, and resting by a bench.

TIMELINE

0-5s	Strolling the path
5-10s	Sniffing a tree
10-15s	Squirrel stare
15-20s	Rolling in the grass
20-25s	Bench rest

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Strolling the path): City park, late morning, overcast sky, flat grey daylight. A cracked paved path curves between tall oak trees and patchy grass. Owner's point of view holding a red nylon leash. The dog walks a little ahead at an easy trot, tail loose, turning its head to look back at the camera once. Sound: birds, distant traffic, tags jingling, footsteps on the path. 5-10s (Sniffing a tree): Same park, overcast daylight. The dog stops at the base of a thick oak tree with fallen leaves around the roots and sniffs very carefully along the bark, nose twitching, tail wagging gently. The leash goes slack in the owner's hand while the dog takes its time. Sound: sniffing, leaves rustling, owner says "okay, are you done?". 10-15s (Squirrel stare): Same park, overcast daylight, grass under a large tree. The dog freezes mid-step, ears straight up, body stiff, staring up at a small grey squirrel sitting on the tree trunk. The leash goes tight. The dog lets out one short whine without moving. Sound: squirrel chattering, a quiet whine, owner says "leave it". 15-20s (Rolling in the grass): Open grassy area of the park, overcast daylight, grass a little uneven with clover patches. The dog drops onto its back and wiggles from side to side, legs pawing at the air, mouth open, then rolls back onto its belly with bits of grass stuck in its fur. Sound: grass rustling, happy grunting, owner laughing. 20-25s (Bench rest): Weathered wooden park bench beside the path, overcast daylight. The owner sits; only their jeans and sneakers are visible. The dog sits on the gravel next to the owner's legs, panting with its tongue out, watching people's movement far away, then leans its shoulder against the owner's knee. Sound: panting, birds, wind in the trees.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Strolling the path

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
