My German Shepherd Playing in the Rain

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

A rainy afternoon: watching the rain through the back door, running out into it, stomping through a puddle, running laps in the wet grass, and drying off on a mat inside.

TIMELINE

0-5s	Watching the rain
5-10s	Out into the rain
10-15s	Puddle stomp
15-20s	Rainy laps
20-25s	Drying off inside

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Watching the rain): Kitchen by a glass sliding back door, rainy afternoon, dim grey daylight. Rain streaks down the glass and the backyard outside is wet and blurry. The dog sits with its nose almost touching the glass, ears forward, watching the rain, then looks back over its shoulder at the camera. Sound: steady rain on the roof, a soft whine. 5-10s (Out into the rain): Back patio and small yard, steady rain, grey overcast light, wet concrete and dark green grass. The sliding door is open and the dog trots out into the rain without hesitating, raindrops bouncing off its back, and sniffs the soaked grass at the edge of the patio. Sound: rain pattering, door sliding, owner says "you're gonna get soaked". 10-15s (Puddle stomp): Same backyard in the rain, grey light, a wide muddy puddle in a bare patch near the wooden fence. The dog walks straight into the puddle, splashing brown water with its front paws, then lowers its nose to sniff the surface, legs splattered with mud. Sound: splashing, rain, owner groaning "oh no, the mud". 15-20s (Rainy laps): Same small backyard, steady rain, overcast grey light, puddles on the grass. The dog runs a fast loop along the fence line and back across the lawn, water spraying up from its paws, coat dark and soaked, ears pinned back from the speed. Sound: rain, wet paws thumping the grass, heavy panting. 20-25s (Drying off inside): Back inside by the sliding door, grey rainy daylight through the glass, a worn brown doormat on beige tile. The soaked dog lies on the mat, coat spiky and wet, small drips falling onto the tiles, and rests its head on its paws, watching the rain outside. Sound: rain on the glass, dripping, a big contented sigh.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Watching the rain

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. Kitchen by a glass sliding back door, rainy afternoon, dim grey daylight. Rain streaks down the glass and the backyard outside is wet and blurry. The dog sits with its nose almost touching the glass, ears forward, watching the rain, then looks back over its shoulder at the camera. Sound: steady rain on the roof, a soft whine.

Clip 2 | 5-10s | Out into the rain

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
