My German Shepherd Is a Sock Thief

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

The great sock heist: stealing from the laundry basket, the getaway down the hall, getting caught, a game of keep-away, and finally trading the sock for a treat.

TIMELINE

0-5s	The heist
5-10s	The getaway
10-15s	Caught red-pawed
15-20s	Keep away
20-25s	The trade

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (The heist): Bedroom, morning, daylight from the window, a plastic laundry basket on the carpet full of clothes. The dog pokes its head into the basket, digs around with its nose, and pulls out a single grey sock in its teeth. A few shirts spill over the edge of the basket onto the carpet. Sound: clothes rustling, owner whispering "what are you doing?". 5-10s (The getaway): Hallway with a wooden floor, morning daylight from a window at the end. The dog trots away down the hall with the grey sock dangling from its mouth, glancing back over its shoulder at the camera. Its tail swings proudly from side to side as it rounds the corner into the living room. Sound: claws clicking on wood, tags jingling. 10-15s (Caught red-pawed): Living room, morning daylight, a brown rug and a low coffee table. The owner calls out and the dog stops, turns around with the sock still in its mouth, tail wagging, and drops into a play bow with its rear end up. Sound: owner saying "drop it", tail thumping the coffee table. 15-20s (Keep away): Same living room, morning daylight. The owner's hand reaches toward the sock and the dog bounces away, prancing around the coffee table with the sock flapping, stopping on the other side to look back. Its eyes stay on the owner's hand the whole time. Sound: paws thumping, owner laughing "come here!". 20-25s (The trade): Same brown rug, morning daylight. The owner's hand holds out a small dog biscuit. The dog drops the soggy grey sock on the rug and gently takes the biscuit, then crunches it while looking at the sock. A little slobber shines on the sock lying on the rug. Sound: crunching, owner says "good trade".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | The heist

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
