My Coworker Does Not Respect Meetings

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

A workday at home: the dog lies under the desk, nudges the owner's arm, brings a toy during a call, stares from the doorway, and announces it is time for a lunch walk.

TIMELINE

0-5s	Under the desk
5-10s	Arm nudge
10-15s	Toy during call
15-20s	Doorway stare
20-25s	Lunch walk demand

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Under the desk): Home office, mid-morning, daylight from a window behind the desk, wooden floor, rolling office chair. The camera points down under the desk at the dog lying between the owner's feet in socks, head on its paws, eyes looking up. A phone charger cable dangles nearby and a slipper lies on its side next to the dog. Sound: keyboard typing, a soft sigh, chair creaking. 5-10s (Arm nudge): Same home office, morning window light. The camera is the owner's point of view at the desk, laptop edge just visible at the bottom. The dog pushes its head up under the owner's arm, flipping the hand off the desk with its nose. Sound: keyboard stops, owner laughs "I am working". 10-15s (Toy during call): Home office, late morning daylight. The dog walks up to the side of the desk holding a squeaky stuffed duck toy in its mouth and squeezes it twice, staring at the camera, tail wagging. The duck is a little dirty and missing one eye, and the window behind the desk shows a cloudy sky. Sound: squeak squeak, owner whispering "not now, I am on a call". 15-20s (Doorway stare): Home office doorway, midday, hallway light behind, beige carpet. The dog lies in the doorway with its chin on the floor, watching the camera without moving, eyebrows shifting as it looks up. A laundry basket sits in the hallway behind it, and every few seconds it shifts its paws without lifting its head. Sound: quiet house, keyboard typing, a long huff. 20-25s (Lunch walk demand): Front hallway, midday daylight from a small window in the door, shoes and a basket by the wall. The dog stands by the front door, looks back at the camera, does a little bounce with its front paws and gives one short bark. Sound: one bark, tags jingling, owner says "okay, lunch break".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Under the desk

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. Home office, mid-morning, daylight from a window behind the desk, wooden floor, rolling office chair. The camera points down under the desk at the dog lying between the owner's feet in socks, head on its paws, eyes looking up. A phone charger cable dangles nearby and a slipper lies on its side next to the dog. Sound: keyboard typing, a soft sigh, chair creaking.

Clip 2 | 5-10s | Arm nudge

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
