Big Brother Meets the New Puppy

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

The adult dog meets a new small puppy: first sniff on the lawn, the puppy following him, sharing toys, a gentle play bow, and napping side by side.

TIMELINE

0-5s	First sniff
5-10s	Puppy follows
10-15s	Sharing a toy
15-20s	Gentle play bow
20-25s	Napping together

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (First sniff): Front lawn, late morning, cloudy daylight, patchy grass, front porch steps behind. A small 8-week-old black and tan German Shepherd puppy stands on the grass. The dog lowers its head and slowly sniffs the puppy from head to tail, tail wagging gently. Sound: sniffing, a tiny whine, owner whispering "be nice". 5-10s (Puppy follows): Backyard, overcast daylight, wooden fence, uneven grass. The dog walks slowly across the lawn and the small black and tan puppy waddles right behind it, trying to keep up. The dog stops and looks back at the puppy. The puppy stumbles once in a dip in the grass, and the dog waits for it to catch up before walking on. Sound: tiny paws on grass, tags jingling, birds. 10-15s (Sharing a toy): Living room, afternoon daylight through a window, beige carpet. The dog lies down next to a soft rope toy. The small black and tan puppy grabs one end of the rope and tugs weakly. The dog just watches calmly and lets it take the toy. Sound: tiny puppy growls, a soft huff, owner laughing quietly. 15-20s (Gentle play bow): Backyard, afternoon, cloudy daylight, short grass. The dog drops into a slow play bow, front legs low, tail wagging. The small black and tan puppy hops forward and back excitedly in front of it, and the dog gently nudges it with its nose. Sound: tiny barks, soft play grunts, birds. 20-25s (Napping together): Living room, late afternoon, soft window light, a large grey dog bed on the floor. The dog lies curled in the bed and the small black and tan puppy is asleep pressed against its chest. The dog lifts its head, looks at the camera, then rests it down. Sound: quiet breathing, a small puppy snore, owner whispering "look at them".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | First sniff

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
