Working on the Basics Today

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

A short training session in the driveway: sit, down, stay while the owner steps back, a recall, and a heel walk with a treat at the end.

TIMELINE

0-5s	Sit
5-10s	Down
10-15s	Stay
15-20s	Recall
20-25s	Heel walk

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Sit): Driveway in front of a garage door, early evening, soft cloudy daylight, concrete with an oil stain. The owner's hand lifts above the dog's head and the dog sits right away, then takes a small treat from the fingers. A trash bin sits by the garage door and the owner's sneakers are just at the bottom of the frame. Sound: owner says "sit", treat crunching, a car passing. 5-10s (Down): Same driveway, cloudy evening light. The owner's hand moves down toward the concrete and the dog lowers itself into a down position, front paws stretched out, eyes on the hand. Its elbows rest on the concrete and its ears stay forward, waiting. The garage door and a trash bin are behind it, and a few dry leaves lie near its paws. Sound: owner says "down", a click, tags jingling. 10-15s (Stay): Driveway, early evening, cloudy light. The camera is the owner's point of view stepping backward slowly. The dog stays lying on the concrete, staring at the camera, its tail twitching once but not getting up. Its ears move slightly and it licks its lips once. The garage door is in the background. Sound: footsteps backward, owner says "stay... stay". 15-20s (Recall): Front lawn next to the driveway, cloudy evening light, slightly overgrown grass. The dog waits at the far side of the lawn, then runs straight toward the camera and sits right in front of the owner's sneakers. Its ears flop as it runs, and the house and driveway are behind the owner in the shot. Sound: owner calling "come!", paws on grass, praise "yes!". 20-25s (Heel walk): Sidewalk in front of the house, early evening, fading cloudy daylight, cracked concrete. The dog walks close beside the owner's left leg on a loose leash, glancing up often, then stops and sits when the owner stops. Neighbors' lawns and parked cars line the street, and a short hedge runs along the sidewalk. Sound: footsteps, tags jingling, owner says "heel... good boy".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Sit

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. Driveway in front of a garage door, early evening, soft cloudy daylight, concrete with an oil stain. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
