Laundry Day Is His Favorite Day

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

Laundry day chaos: the dog steals a sock, lies in the clean laundry pile, sniffs the dryer, gets a warm towel draped over him, and gets caught napping on the folded clothes.

TIMELINE

0-5s	Sock thief
5-10s	Laundry pile
10-15s	Dryer sniff
15-20s	Warm towel
20-25s	Caught napping

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Sock thief): Laundry room, morning, daylight from a small window, white washer and dryer, grey tile floor, a plastic laundry basket. The dog pulls a single grey sock from the basket and trots out of the room with it, tail wagging. A bottle of detergent sits on top of the washer and a few towels lie on the floor by the basket. Sound: washer humming, tags jingling, owner says "hey! drop it". 5-10s (Laundry pile): Bedroom, mid-morning, bright daylight through the window, a pile of clean clothes and towels on the bed. The dog jumps onto the bed, walks into the middle of the pile, circles once and flops down on top of it. A towel slides off the edge of the bed as it settles, and it rests its head on a pair of folded jeans. Sound: bed springs creaking, fabric rustling, owner groaning. 10-15s (Dryer sniff): Laundry room, morning window light, grey tile floor. The dryer is running and humming. The dog stands in front of it, sniffing at the round glass door with its head tilting as the clothes tumble inside. A lint brush sits on top of the dryer and the dog takes one small step back when the dryer thumps. Sound: dryer rumbling, sniffing, a curious whine. 15-20s (Warm towel): Living room, late morning light, couch and beige carpet. The owner's hands drape a warm fluffy blue towel fresh from the dryer over the dog's back. The dog closes its eyes and leans into it, then lies down under it. Sound: soft fabric, a happy groan, owner says "nice and warm". 20-25s (Caught napping): Bedroom, midday, soft daylight, neatly folded clothes stacked on the bed. The camera walks in from the doorway to find the dog asleep right on top of the folded stacks, one eye opening to look at the camera. Its tail thumps once against the bedspread, and a few shirts have slid off the stack onto the floor. Sound: owner sighing "really?", a slow tail thump.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
