Who Is at the Door?

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

The doorbell rings: the dog jumps up from his nap, races to the door, barks at the window, sniffs the package left on the porch, and goes back to his spot.

TIMELINE

0-5s	Doorbell wake-up
5-10s	Racing to the door
10-15s	Window barking
15-20s	Package sniff
20-25s	Back to napping

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Doorbell wake-up): Living room, early afternoon, overcast daylight through the front window, grey couch, beige carpet. The dog is asleep on the carpet. A doorbell rings and its head snaps up, ears forward, then it jumps to its feet. A chew toy lies next to where it was sleeping, and its fur is flattened on one side from napping. Sound: doorbell ding-dong, one quick woof, collar tag jingling. 5-10s (Racing to the door): Front hallway, daylight from the narrow window beside the front door, wooden floor, shoes in a pile. The dog runs down the hallway toward the front door, claws slipping on the floor as it skids to a stop. A rug by the door bunches up under its paws as it stops, and its tail is high and stiff. Sound: claws scrambling, loud barks, owner calling "okay okay". 10-15s (Window barking): Front window by the door, cloudy daylight outside, a quiet street and lawn visible through the glass. The dog puts its front paws on the low window ledge and barks out at the empty porch, tail stiff. A potted plant sits on the ledge beside its paws and its breath fogs a small spot on the glass. Sound: deep barking, a truck driving away outside. 15-20s (Package sniff): Front porch, overcast afternoon, worn welcome mat. The front door is open and a plain brown cardboard box sits on the mat. The dog steps out, sniffs every corner of the box carefully, then looks up at the camera. Its tail wags slowly as it sniffs, and a few dry leaves lie on the porch boards. Sound: sniffing, wind, owner says "it is just my package". 20-25s (Back to napping): Living room, afternoon, overcast window light, beige carpet. The dog walks back to the same spot on the carpet, turns in a circle and lies down with a heavy flop, letting out a big huff. The chew toy is still next to it, and it rests its head on its paws and closes its eyes again. Sound: a heavy flop, a big huff, quiet house.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Doorbell wake-up

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. Living room, early afternoon, overcast daylight through the front window, grey couch, beige carpet. The dog is asleep on the carpet. A doorbell rings and its head snaps up, ears forward, then it jumps to its feet. A chew toy lies next to where it was sleeping, and its fur is flattened on one side from napping. Sound: doorbell ding-dong, one quick woof, collar tag jingling.

Clip 2 | 5-10s | Racing to the door

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
