Watermelon Snack Time

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

A summer backyard snack: the dog watches the cutting board, gets seedless watermelon cubes, crunches them on the lawn, begs for more and drips juice everywhere.

TIMELINE

0-5s	Watching the board
5-10s	First cube
10-15s	Lawn crunching
15-20s	Begging for more
20-25s	Juicy drool

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Watching the board): Outdoor wooden picnic table in the backyard, late morning, bright summer daylight. A plate of small seedless watermelon cubes with no rind sits on the table. The dog rests its chin on the table edge, staring at the plate, nose twitching. Sound: birds, a fly buzzing, sniffing, owner says "I see you". 5-10s (First cube): Same backyard table, bright daylight. The owner's open palm holds out one small pink seedless watermelon cube. The dog takes it gently with its front teeth, ears back, and chews with a surprised look as juice drips. Sound: wet crunching, juicy chewing, owner laughs "good?". 10-15s (Lawn crunching): Green backyard lawn with a few dry patches, bright late morning sun, wooden fence behind. The dog lies on the grass holding a watermelon cube between its paws, chewing it loudly, pink juice on its chin. Sound: crunching, birds, a neighbor's radio faintly. 15-20s (Begging for more): Next to the picnic table, bright daylight. The dog sits up straight in front of the camera, juice dripping from its muzzle, and lifts one front paw to tap the owner's knee, then sits waiting with ears up. Sound: tags jingling, owner says "one more, that's it". 20-25s (Juicy drool): Same backyard, bright summer daylight. Close up of the dog's face as it licks its lips over and over, pink juice on its whiskers, then shakes its head and sends small drops flying toward the camera. Sound: lip smacking, head shake with ears flapping, owner says "ew, thanks".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Watching the board

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
