Peanut Butter Lick Mat

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

A calm rainy afternoon: the owner spreads dog-safe peanut butter on a lick mat, the dog licks it on the floor, holds it with its paws, licks it clean and naps afterward.

TIMELINE

0-5s	Spreading it
5-10s	Mat goes down
10-15s	Paws hold it
15-20s	Licked clean
20-25s	Calm nap

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Spreading it): Kitchen counter in the afternoon, grey rainy light from a window, wooden cabinets. The owner's hand spreads a thin layer of xylitol-free peanut butter onto a green rubber lick mat with a spoon. The dog's nose pokes up into the frame at the counter edge, sniffing. Sound: rain tapping the window, spoon scraping, loud sniffing. 5-10s (Mat goes down): Kitchen floor, light brown vinyl planks, rainy afternoon light. The owner's hand sets the green lick mat on the floor. The dog lies down right away and starts licking, long tongue sweeping across the mat. Sound: mat touching the floor, rhythmic licking, owner says "enjoy". 10-15s (Paws hold it): Same kitchen floor, soft grey light. Close up from above: the dog holds the edge of the lick mat down with both front paws, licking with steady focus, eyes half closed, a smear of peanut butter on its nose. Sound: steady licking, rain outside, the fridge humming. 15-20s (Licked clean): Same kitchen floor, rainy daylight. The dog pushes the now clean mat across the floor with its nose, licks it once more, then looks up at the camera, licking its lips again and again. Sound: mat sliding on the floor, lip smacking, owner laughs "all gone". 20-25s (Calm nap): Living room dog bed by a rainy window, dim grey afternoon light. The dog lies curled in a brown plush bed, still licking its nose slowly, then rests its chin down and closes its eyes. Sound: soft rain, slow breathing, a deep relaxed sigh.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Spreading it

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
