# My Kid's Homework Buddy

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

## VIDEO IDEA

An after-school routine: the dog greets the kid, lies under the desk, rests its head on the kid's lap, gets a break pet and celebrates when homework is done.

## TIMELINE

| | |
|---|---|
| **0-5s** | After school greeting |
| **5-10s** | Under the desk |
| **10-15s** | Head on lap |
| **15-20s** | Break time pets |
| **20-25s** | Done celebration |

## FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (After school greeting): Front entryway, mid afternoon, daylight from an open door, backpacks and shoes on the floor. A boy around ten walks in and drops his backpack. The dog trots to him, tail wagging hard, and sniffs the backpack. Sound: door closing, backpack thud, boy says "hi buddy!". 5-10s (Under the desk): Kid's bedroom, afternoon, natural window light, a small wooden desk. The boy sits writing in a notebook, only his legs and sneakers visible under the desk. The dog lies curled beside his feet, chin on the floor. Sound: pencil scratching, quiet room, the dog's slow breathing. 10-15s (Head on lap): Same bedroom, afternoon daylight. The dog sits up and rests its chin on the boy's knee, staring up at him. The boy's free hand drops down and rubs the dog's head without looking away from his work. Sound: pencil scratching, boy sighs "math is hard", tags jingling. 15-20s (Break time pets): Bedroom floor, late afternoon, window light, blue carpet. The boy slides off his chair and sits on the carpet. The dog rolls onto its back next to him and the boy scratches its belly with both hands. Sound: boy giggling, the dog's legs kicking slightly, tags clinking. 20-25s (Done celebration): Same bedroom, late afternoon light. The boy stands up and closes his notebook with a clap. The dog jumps up on all fours, spins in a quick circle and bounces toward the bedroom door, tail wagging. Sound: notebook slapping shut, boy says "done! let's go outside", happy barks.

## AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

## CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

### Clip 1 | 0-5s | After school greeting

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. ## HOW TO MAKE IT LOOK REAL

| | |
|---|---|
| **Use a real photo** | Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips. |
| **Make 5 short clips** | Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead. |
| **Pick the most natural** | Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face. |
| **Keep the real sound** | Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath. |
| **No filters** | Do not add filters, slow motion or fancy transitions - real home videos don't have them. |
