Fishing Trip at the Lake

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

An early morning at the lake: the dog sits on the dock, watches the bobber, wades in the shallows, sniffs the cooler and naps on the warm boards.

TIMELINE

0-5s	Dock sitting
5-10s	Watching the bobber
10-15s	Shallow wading
15-20s	Sniffing the cooler
20-25s	Dock nap

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Dock sitting): Small weathered wooden dock on a calm lake, early morning, soft misty grey light, pine trees on the far shore. The dog sits on the dock next to the owner's boots and a tackle box, looking out at the water. Sound: water lapping the dock, loons calling, a quiet morning. 5-10s (Watching the bobber): Same dock, early morning, misty light. A fishing line runs out to a red and white bobber floating on the flat water. The dog lies on its belly at the dock edge, ears up, staring at the bobber. Sound: soft water sounds, birds, owner whispers "don't scare the fish". 10-15s (Shallow wading): Rocky lake shoreline next to the dock, morning, light mist lifting, clear shallow water. The dog wades in up to its chest, sniffing the surface, then pounces at a ripple and splashes. Sound: splashing, wet paws on rocks, owner laughs "there goes the fishing". 15-20s (Sniffing the cooler): Back on the dock, mid morning, brighter overcast daylight. A blue plastic cooler sits closed on the boards. The dog, still dripping, sniffs all around the cooler lid and nudges it with its nose. Sound: water dripping on wood, loud sniffing, owner says "no, that's lunch". 20-25s (Dock nap): Same wooden dock, late morning, mild daylight, calm lake. The dog lies on its side on the boards, damp fur drying, eyes closed, next to the owner's boots and a fishing rod propped on the railing. Sound: water lapping, a distant boat motor, slow breathing.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Dock sitting

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
