Mud Puddle Mess

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

A muddy morning after rain: the dog spots a puddle, jumps in, rolls around, shakes off near the owner and waits at the back door for a towel.

TIMELINE

0-5s	Spots the puddle
5-10s	Jumps right in
10-15s	Mud roll
15-20s	Big shake
20-25s	Waiting for towel

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Spots the puddle): Backyard after rain, morning, flat grey cloudy light, soggy grass and a big brown mud puddle near the fence. The dog stops, stares at the puddle with ears forward, and lowers its front end. Sound: dripping gutters, birds, owner says "don't you dare". 5-10s (Jumps right in): Same muddy backyard, cloudy morning light. The dog bounds into the puddle with both front paws, splashing brown water everywhere, then stomps around in it with its tail wagging. Sound: big splashes, owner groans "nooo". 10-15s (Mud roll): Same puddle by the wooden fence, overcast morning. The dog flops onto its side in the mud and wiggles on its back, legs kicking in the air, its black and tan coat turning brown. Sound: squelching mud, happy grunts, owner laughing in disbelief. 15-20s (Big shake): Patchy lawn near the patio, grey morning light. The dog walks up close to the camera covered in mud and shakes its whole body, spraying muddy drops onto the owner's jeans and the lens. Sound: ears flapping, spray hitting, owner shouts "oh come on!". 20-25s (Waiting for towel): Back door step, cloudy morning, a doormat and an old towel. The muddy dog sits on the mat looking up at the camera, tail sweeping mud across the step, waiting while the owner's hand reaches down with the towel. Sound: tail swishing, dripping, owner sighs "bath time, buddy".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Spots the puddle

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. Backyard after rain, morning, flat grey cloudy light, soggy grass and a big brown mud puddle near the fence. The dog stops, stares at the puddle with ears forward, and lowers its front end. Sound: dripping gutters, birds, owner says "don't you dare".

Clip 2 | 5-10s | Jumps right in

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
