Fur Everywhere (Shedding Season)

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

Shedding season at home: fur on the black couch, a brushing session, a pile of fur on the floor, tumbleweeds by the vacuum and fur on the owner's clothes.

TIMELINE

0-5s	Furry couch
5-10s	Brushing session
10-15s	The fur pile
15-20s	Fur tumbleweeds
20-25s	Furry clothes

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Furry couch): Living room in the morning, plain daylight from a window, a dark grey fabric couch covered in tan and black fur. The dog lies on the couch cushion and lifts its head as the camera pans across all the hair. Sound: owner sighs "look at this couch", tags jingling. 5-10s (Brushing session): Back patio, morning, overcast daylight, concrete slabs. The owner's hand pulls an undercoat brush along the dog's side and big tufts of soft fur come out. The dog stands calmly, leaning into the brush. Sound: brush raking, birds, owner says "how is there more?". 10-15s (The fur pile): Same patio, overcast morning. A big fluffy pile of shed undercoat sits on the concrete next to the dog. The dog sniffs the pile curiously, and a breeze blows some fur across the slabs. Sound: breeze, sniffing, owner laughing "that's a whole other dog". 15-20s (Fur tumbleweeds): Hallway, late morning, daylight from a doorway, light wood floor. Small fluffy fur tumbleweeds drift along the baseboard. The dog walks past them and sits beside an upright vacuum, watching it. Sound: claws clicking, owner says "I vacuumed an hour ago". 20-25s (Furry clothes): Same hallway near the front door, daylight. The owner looks down at black leggings covered in fur. The dog leans against the owner's legs and rubs its side against them, adding more fur, tail wagging. Sound: tags jingling, owner laughs "thanks, buddy".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Furry couch

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
