Zoomies After the Bath

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

Bath day chaos: the dog gets rinsed in the tub, steps out, shakes, rubs on the carpet and does wild laps around the living room.

TIMELINE

0-5s	Rinse in the tub
5-10s	Steps out
10-15s	Big shake
15-20s	Carpet rubbing
20-25s	Zoomie laps

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Rinse in the tub): Small bathroom, daylight from a frosted window, white tub and tile. The dog stands in the tub, soaked and skinny-looking, while the owner's hand rinses its back with a handheld shower head. The dog gives the camera a patient look. Sound: water running, tub echo, owner says "almost done". 5-10s (Steps out): Same bathroom, frosted window light, a bath mat on the tile floor. The owner wraps a blue towel around the dog as it steps out of the tub. The dog's tail starts wagging fast under the towel. Sound: dripping water, towel rubbing, claws on tile. 10-15s (Big shake): Same bathroom, daylight. The dog wiggles out of the towel and shakes its whole body hard, water spraying onto the white tile walls and the camera. Sound: water spraying, ears flapping, owner yelps and laughs. 15-20s (Carpet rubbing): Living room, afternoon daylight from windows, beige carpet. The damp dog drops and rubs its face and side along the carpet, pushing itself forward with its back legs, grunting happily. Sound: carpet rubbing, happy grunts, owner says "there it goes". 20-25s (Zoomie laps): Same living room, afternoon daylight, a couch and coffee table. The damp dog sprints in a loop around the coffee table, tucks its back end down and races past the camera twice, ears back. Sound: thundering paws, a cushion falling, owner laughing "zoomies!".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
