My Snow Shoveling Helper

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

A snowy morning in the driveway: the dog bounds into fresh snow, bites at the shovel's snow, digs, rolls in a drift and waits by the door with a frosty face.

TIMELINE

0-5s	Fresh snow bound
5-10s	Biting the snow
10-15s	Digging
15-20s	Rolling in a drift
20-25s	Frosty face

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Fresh snow bound): Front yard after a snowfall, morning, bright white overcast light, a deep layer of fresh snow. The front door opens and the dog bounds out, hopping through the deep snow with its nose down. Sound: door opening, snow crunching, owner says "go on". 5-10s (Biting the snow): Snowy driveway, morning, flat white daylight, a parked car covered in snow. The owner pushes a shovel and tosses a scoop of snow to the side. The dog jumps at the flying snow and snaps at it. Sound: shovel scraping, snow thumping, the dog's jaws snapping. 10-15s (Digging): Edge of the snowy driveway, overcast morning. The dog digs fast with both front paws into a snowbank, sending snow flying behind it, then shoves its whole face into the hole. Sound: digging scrapes, snow spraying, owner laughs "not helping". 15-20s (Rolling in a drift): Front lawn under snow, cold grey daylight, bare trees. The dog drops onto its back in a snowdrift and wiggles side to side, legs paddling in the air, snow sticking to its coat. Sound: snow crunching, happy grunting, cold wind. 20-25s (Frosty face): Front door step, cold morning, grey daylight, boots and a shovel leaning by the door. The dog sits on the mat with snow caked on its muzzle and eyebrows, breath steaming, looking up at the camera. Sound: heavy breathing, snow dripping, owner says "okay, snowman, inside".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Fresh snow bound

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. FACEBOOK CAPTION

He shoveled zero snow. He ate about half of it.
Does your dog love the snow?

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
