Picnic in the Park

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

A sunny weekend picnic: the dog sniffs the blanket, waits politely for a dog-safe snack, chews a carrot, plays with a ball on the grass and naps on the blanket.

TIMELINE

0-5s	Blanket sniff
5-10s	Polite waiting
10-15s	Carrot crunch
15-20s	Ball on the grass
20-25s	Blanket nap

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Blanket sniff): City park lawn, late morning, bright sunny daylight, big shade trees and a path in the background. A red checkered picnic blanket is spread on the grass. The dog walks across it, sniffing the corners and a wicker basket. Sound: birds, distant kids playing, owner says "leave it". 5-10s (Polite waiting): Same picnic blanket, bright late morning light. The dog sits on the edge of the blanket, posture straight, staring at the owner's sandwich, a little drool hanging from its lip, ears forward. Sound: paper wrapper crinkling, owner laughs "so polite all of a sudden". 10-15s (Carrot crunch): Park lawn beside the blanket, sunny daylight, dappled tree shade. The owner's hand gives the dog a whole raw baby carrot. The dog lies down and crunches it loudly, holding it with its paws. Sound: loud crunching, birds, owner says "your snack". 15-20s (Ball on the grass): Open grass near the picnic spot, midday, bright sun, trees around the edges. The owner's hand rolls a red rubber ball across the grass. The dog chases it, pounces and trots back with it. Sound: paws on grass, tags jingling, people chatting far away. 20-25s (Blanket nap): Picnic blanket in the shade of a big tree, early afternoon, soft dappled daylight. The dog lies stretched out on the red checkered blanket, belly up, eyes closed, next to the owner's legs and a water bottle. Sound: breeze in the leaves, soft snoring, birds.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
