Weekend Car Wash Helper

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

Saturday car wash in the driveway: supervising, sniffing the soap bucket, biting the hose water, shaking off on the clean car and drying in the sun.

TIMELINE

0-5s	Supervising
5-10s	Sniffing the bucket
10-15s	Biting the hose water
15-20s	Big shake
20-25s	Drying in the sun

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Supervising): Concrete driveway, sunny Saturday late morning, a silver sedan, a red bucket of soapy water and a green garden hose on the ground. The dog sits on the driveway watching the owner's hand scrub the car door with a yellow sponge, its head tilting. Sound: sponge squeaking, birds, a neighbor's radio far away. 5-10s (Sniffing the bucket): Same sunny driveway, red bucket of foamy water next to the silver car. The dog walks up and sniffs the foam, gets a bit of suds on its nose, backs away and sneezes, then shakes its head. Water drips down the car door behind it onto the concrete. Sound: a loud sneeze, owner laughing "that's not for you". 10-15s (Biting the hose water): Sunny driveway, wet concrete. The owner's hand sprays the garden hose at the car and the dog jumps in and bites at the stream of water, water splashing over its face and chest as it snaps at the spray. Its collar tag flashes as it twists after the stream. Sound: hose spraying, jaws snapping, splashing, owner laughing. 15-20s (Big shake): Driveway next to the silver car, bright late morning sun. The soaking wet dog stands still for a second, then shakes its whole body hard, spraying water drops all over the clean car door and toward the camera. A few drops land on the lens and the camera wobbles. Sound: water spraying off the fur, tags rattling, owner yelling "nooo!". 20-25s (Drying in the sun): Front lawn beside the driveway, sunny late morning, patchy green grass. The dog lies on an old striped beach towel, its wet fur spiky, panting, while the clean silver car sits in the driveway behind it. Its ears twitch at a bird landing on the nearby fence. Sound: panting, hose dripping, birds.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Supervising

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
