Wearing Dog Boots for the First Time

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

First snow day in new boots: frozen in the kitchen, the famous high-step walk, trying to shake one off, careful steps on the snow and finally running free.

TIMELINE

0-5s	Frozen in boots
5-10s	High-step walk
10-15s	Shaking a boot
15-20s	Careful snow steps
20-25s	Running free

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Frozen in boots): Kitchen, cold winter morning, pale daylight through the window, grey tile floor. The dog stands wearing four new red rubber dog boots, looking down at its front paws, not moving at all, ears pulled back slightly. A water bowl and a food bowl sit by the back door. Sound: quiet kitchen, owner laughing "you can walk, I promise". 5-10s (High-step walk): Same kitchen, pale winter daylight, grey tile floor. The dog walks across the tiles lifting each leg very high with stiff exaggerated steps, like it is stepping on something sticky, the red boots tapping on the floor. Its tail is tucked low and it keeps glancing at its feet. Sound: boots squeaking on tile, owner cracking up. 10-15s (Shaking a boot): Kitchen floor, pale morning light. The dog stops, lifts one back leg and shakes it quickly a few times trying to flick the red boot off, then puts it down and looks at it. The boot stays on and the dog lets out a small huff. Sound: boot flapping, tags jingling, owner says "nope, they stay on". 15-20s (Careful snow steps): Snowy front yard, overcast winter morning, fresh white snow, bare trees and a cleared path. The dog steps onto the snow in its red boots, still high-stepping carefully for a few steps, then starts to trot. Its paw prints leave neat round marks in the fresh snow behind it. Sound: snow crunching, cold wind, owner says "there you go". 20-25s (Running free): Same snowy front yard, overcast winter daylight. The dog runs a big loop through the snow, boots kicking up powder, then comes back to the camera panting, its breath showing in the cold air. Snow sticks to the fur on its chest and chin. Sound: snow crunching, heavy panting, owner cheering.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Frozen in boots

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. Snow sticks to the fur on its chest and chin. Sound: snow crunching, heavy panting, owner cheering.

FACEBOOK CAPTION

First 5 minutes: he forgot how legs work.
Next 5 minutes: he loves them. Did your dog do the boot walk too?

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
