Drive-Thru Pup Cup

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

A rare treat day: car ride, the drive-thru window, his first lick of a small cup of plain whipped cream, cleaning his nose and a happy lie-down on the ride home.

TIMELINE

0-5s	Car ride
5-10s	At the window
10-15s	First lick
15-20s	Cleaning his nose
20-25s	Happy ride home

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Car ride): Back seat of a car, sunny afternoon light through the windows. The dog sits on a grey seat cover, clipped in with a seatbelt harness, its head near the half-open window, ears blowing back as parked cars and trees pass by. Sound: wind through the window, engine hum, owner says "you know where we're going". 5-10s (At the window): Car stopped at a drive-thru window, bright afternoon daylight. The dog leans forward between the front seats with its nose up, sniffing toward the open driver's window as a worker's hand passes in a small plain paper cup of whipped cream. Sound: sniffing, worker saying "here's one for the pup", owner says "thank you". 10-15s (First lick): Inside the parked car, sunny afternoon. The owner's hand holds the small cup of plain whipped cream in front of the dog, and the dog licks it eagerly, getting white cream all over its nose and whiskers. Its tail thumps against the back of the seat as it licks. Sound: loud licking, owner laughing "slow down". 15-20s (Cleaning his nose): Back seat of the car, sunny daylight. The dog sits back and licks the whipped cream off its nose and lips with long swipes of its tongue, while the empty cup sits in the owner's hand. A little white cream is still stuck to its whiskers. Sound: lip licking, tags jingling, happy panting. 20-25s (Happy ride home): Back seat of the moving car, afternoon sunlight through the windows, still in its seatbelt harness. The dog lies down on the seat cover, licks its lips one last time and rests its chin on the seat with a content sigh. Sound: engine hum, a long sigh, turn signal clicking.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Car ride

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
