Mom's Shadow (He Follows Me Everywhere)

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

A normal day of being followed everywhere: in the kitchen, the laundry room, outside the bathroom door, up the stairs and under the desk.

TIMELINE

0-5s	Kitchen shadow
5-10s	Laundry room
10-15s	Bathroom door
15-20s	Up the stairs
20-25s	Under the desk

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Kitchen shadow): Kitchen, morning daylight, beige tile floor, white cabinets. Camera is mom's point of view looking down: the dog stands right behind her bare feet at the counter, so close its nose touches her calf, staring up at her. When she steps to the fridge, the dog steps with her. Sound: coffee maker gurgling, mom says "you're right there again". 5-10s (Laundry room): Small laundry room, overcast daylight from a high window, white washing machine, a plastic laundry basket. The dog lies across the doorway right behind mom's feet while her hands drop a few towels into the washer. Its eyes follow every move of her hands. Sound: washer door clicking, a big dog sigh. 10-15s (Bathroom door): Inside a small bathroom, dim daylight, looking at the gap under the closed door. The dog's black nose pokes under the gap from the hallway side, sniffing loudly, and its paws shuffle back and forth on the other side. A bath mat and a towel are in the bottom of the frame. Sound: loud sniffing, a soft whine, mom sighs "I'll be out in a minute". 15-20s (Up the stairs): Carpeted staircase, afternoon daylight from a window at the top. The camera looks back over mom's shoulder as she walks up, and the dog climbs one step behind her, looking up at her the whole way. When she stops on the landing, the dog stops and sits too. Sound: footsteps on carpet, tags jingling. 20-25s (Under the desk): Small home office, afternoon window light, wooden desk, office chair. Camera looks down under the desk where the dog lies on the floor with its head resting on mom's socked feet, sighing and closing its eyes. A phone charger cable and a pair of slippers are on the floor beside it. Sound: keyboard typing, a long sigh.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Kitchen shadow

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. Kitchen, morning daylight, beige tile floor, white cabinets. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
