Hearing Dad's Voice on a Video Call

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

Dad is away for work and calls home: the dog hears his voice, sniffs the phone, runs to check the front door, whines at the phone and waits on the doormat after the call.

TIMELINE

0-5s	Hearing his voice
5-10s	Sniffing the phone
10-15s	Checking the door
15-20s	Whining at the phone
20-25s	Waiting by the door

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Hearing his voice): Living room couch, early evening, last grey daylight from the window, a knitted blanket on the cushions. Mom's hand holds a phone toward the dog with the screen facing away from the camera. Dad's voice comes from the phone and the dog lifts its head and its ears shoot up. Sound: dad's voice on speaker saying "hey buddy, where's my boy?". 5-10s (Sniffing the phone): Same couch, early evening grey daylight. The phone screen still faces away from the camera. The dog tilts its head one way, then the other, then leans in and sniffs the phone in mom's hand, tail starting to wag. Its ears keep twitching at every word. Sound: dad's voice saying "good boy", sniffing, tail thumping on the couch. 10-15s (Checking the door): Front hallway, dim evening daylight through the door window, shoes on a mat. The dog runs in from the living room to the front door, sniffs along the bottom of the door, then looks back over its shoulder. Its tail slowly drops when the door stays shut. Sound: claws on the floor, sniffing, mom saying "he's not here, honey". 15-20s (Whining at the phone): Back on the living room couch, evening grey daylight. Mom holds the phone up with the screen facing away from the camera. The dog wiggles closer, tail wagging hard, gives a soft whine and licks the edge of the phone. Sound: soft whining, dad laughing on speaker "I miss you too". 20-25s (Waiting by the door): Front hallway, dim evening daylight, the phone call over. The dog lies down on the doormat facing the front door with its chin on its front paws, eyes on the door, ears still turning toward any sound. Dad's worn sneakers sit on the mat next to it. Sound: quiet house, a long sigh, mom says "three more days, bud".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Hearing his voice

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. Living room couch, early evening, last grey daylight from the window, a knitted blanket on the cushions. Mom's hand holds a phone toward the dog with the screen facing away from the camera. Dad's voice comes from the phone and the dog lifts its head and its ears shoot up. Sound: dad's voice on speaker saying "hey buddy, where's my boy?".

Clip 2 | 5-10s | Sniffing the phone

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
