Playdate With His Husky Friend

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

A cloudy afternoon playdate with his husky buddy: the hello sniff, a chase along the fence, play bows with husky talking, a shared water break and resting in the grass.

TIMELINE

0-5s	Hello sniff
5-10s	Fence chase
10-15s	Play bows and talking
15-20s	Water break
20-25s	Resting in the grass

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Hello sniff): Fenced backyard, cool cloudy afternoon, short brown-green grass, tall wooden fence. A grey and white Siberian Husky trots up and the two dogs sniff each other's faces, both tails wagging high. The husky's owner's legs in jeans stand near the gate, and a few fallen leaves cover the grass. Sound: excited sniffing, tags jingling, owner says "say hi to your friend". 5-10s (Fence chase): Same fenced backyard, cloudy afternoon. The husky runs off across the yard and the dog chases a few steps behind, both running in a wide loop along the wooden fence, ears back and tongues out. The dog's tail streams out behind it as it runs. Sound: paws pounding on grass, panting, owners laughing. 10-15s (Play bows and talking): Middle of the backyard, cloudy afternoon. The two dogs face each other a few feet apart. The dog drops into a play bow and the husky bounces sideways and makes its loud husky talking sounds. Both dogs' tails wag fast, and the dog hops forward once, then back. Sound: husky woo-woo howling, a playful bark. 15-20s (Water break): Backyard patio, cloudy afternoon, grey concrete pavers. The two dogs stand side by side drinking from a big steel water bowl, water dripping from their chins onto the pavers. A garden hose is coiled next to the bowl, and the husky finishes first and walks away. Sound: loud lapping, dripping water. 20-25s (Resting in the grass): Backyard lawn, late cloudy afternoon, cool grey light. The two dogs lie in the grass a few feet apart, both panting. The husky rolls onto its back for a second while the dog watches it. Bits of grass stick to both coats. Sound: panting, wind in the trees, owner says "they're done".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Hello sniff

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
