50 unique scenes, 1,000 to 2,000 dots each

50 puzzles · 1000–2000 dots each

How to play

1. Find dot 1 (a hollow circle) and draw a line to 2, then 3, then 4 ... and keep going in order.

2. Hollow circles mark the start of a new line. When you reach one, lift your pen - do not join it to the number before it - and carry on from there. A shape that closes in a loop ends back on its hollow start dot, so that dot has two numbers.

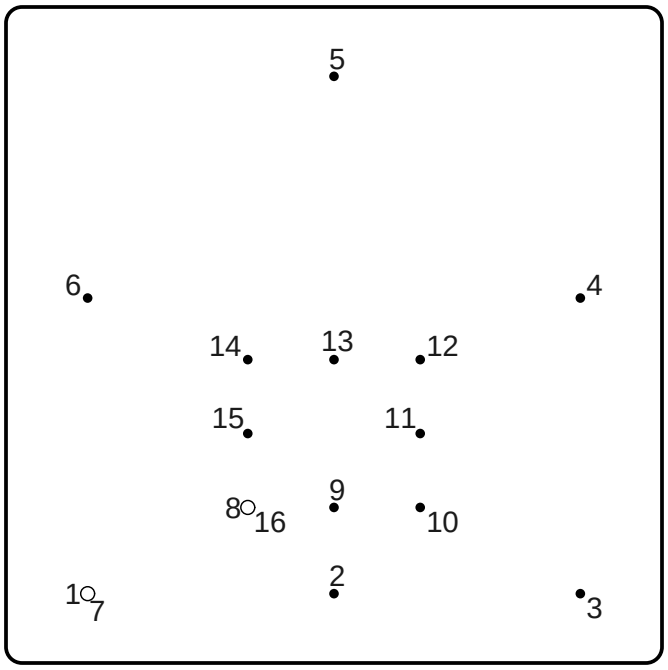

3. Every 100th number is printed in bold to help you find your place.

4. Lines that are already printed are part of the picture: draw around them.

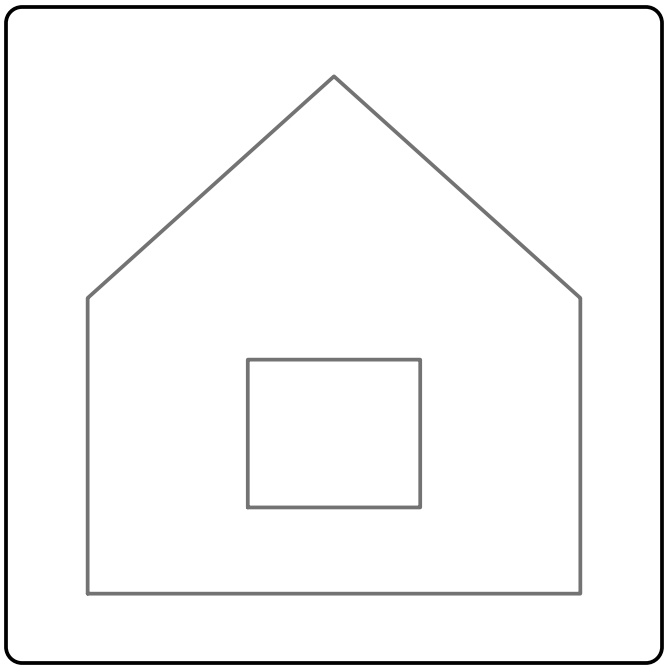

5. Each puzzle shows its difficulty (1 to 5 stars) and dot count. They get harder as the book goes on.

6. Stuck, or curious? Every finished picture is in the Solutions section at the back.

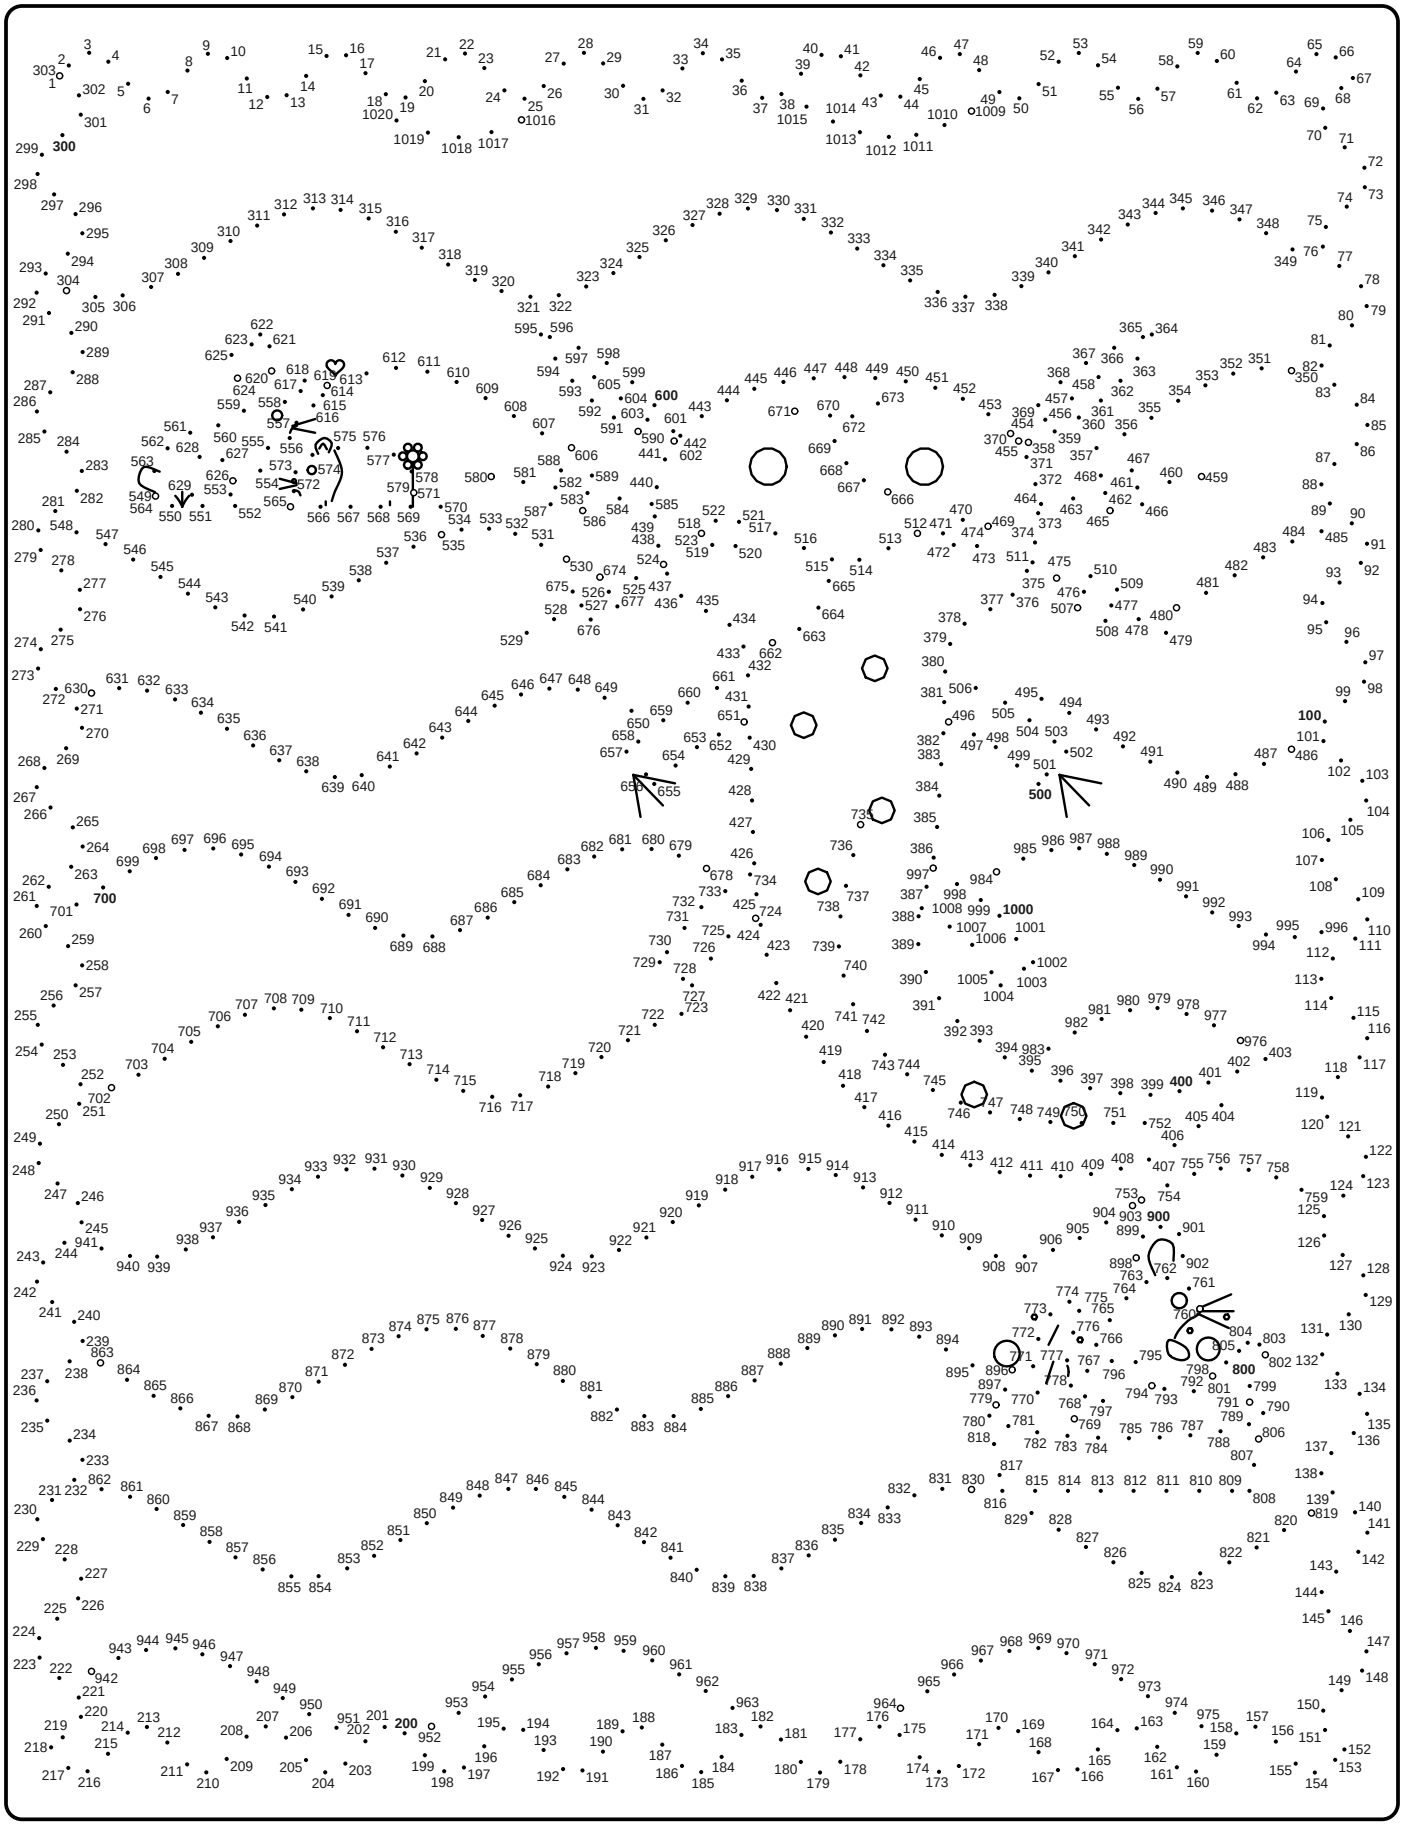

Tip: use a fine-tip pen or a sharp pencil, and a ruler for long straight lines. Pages are printed on one side only, so markers will not ruin the next puzzle.

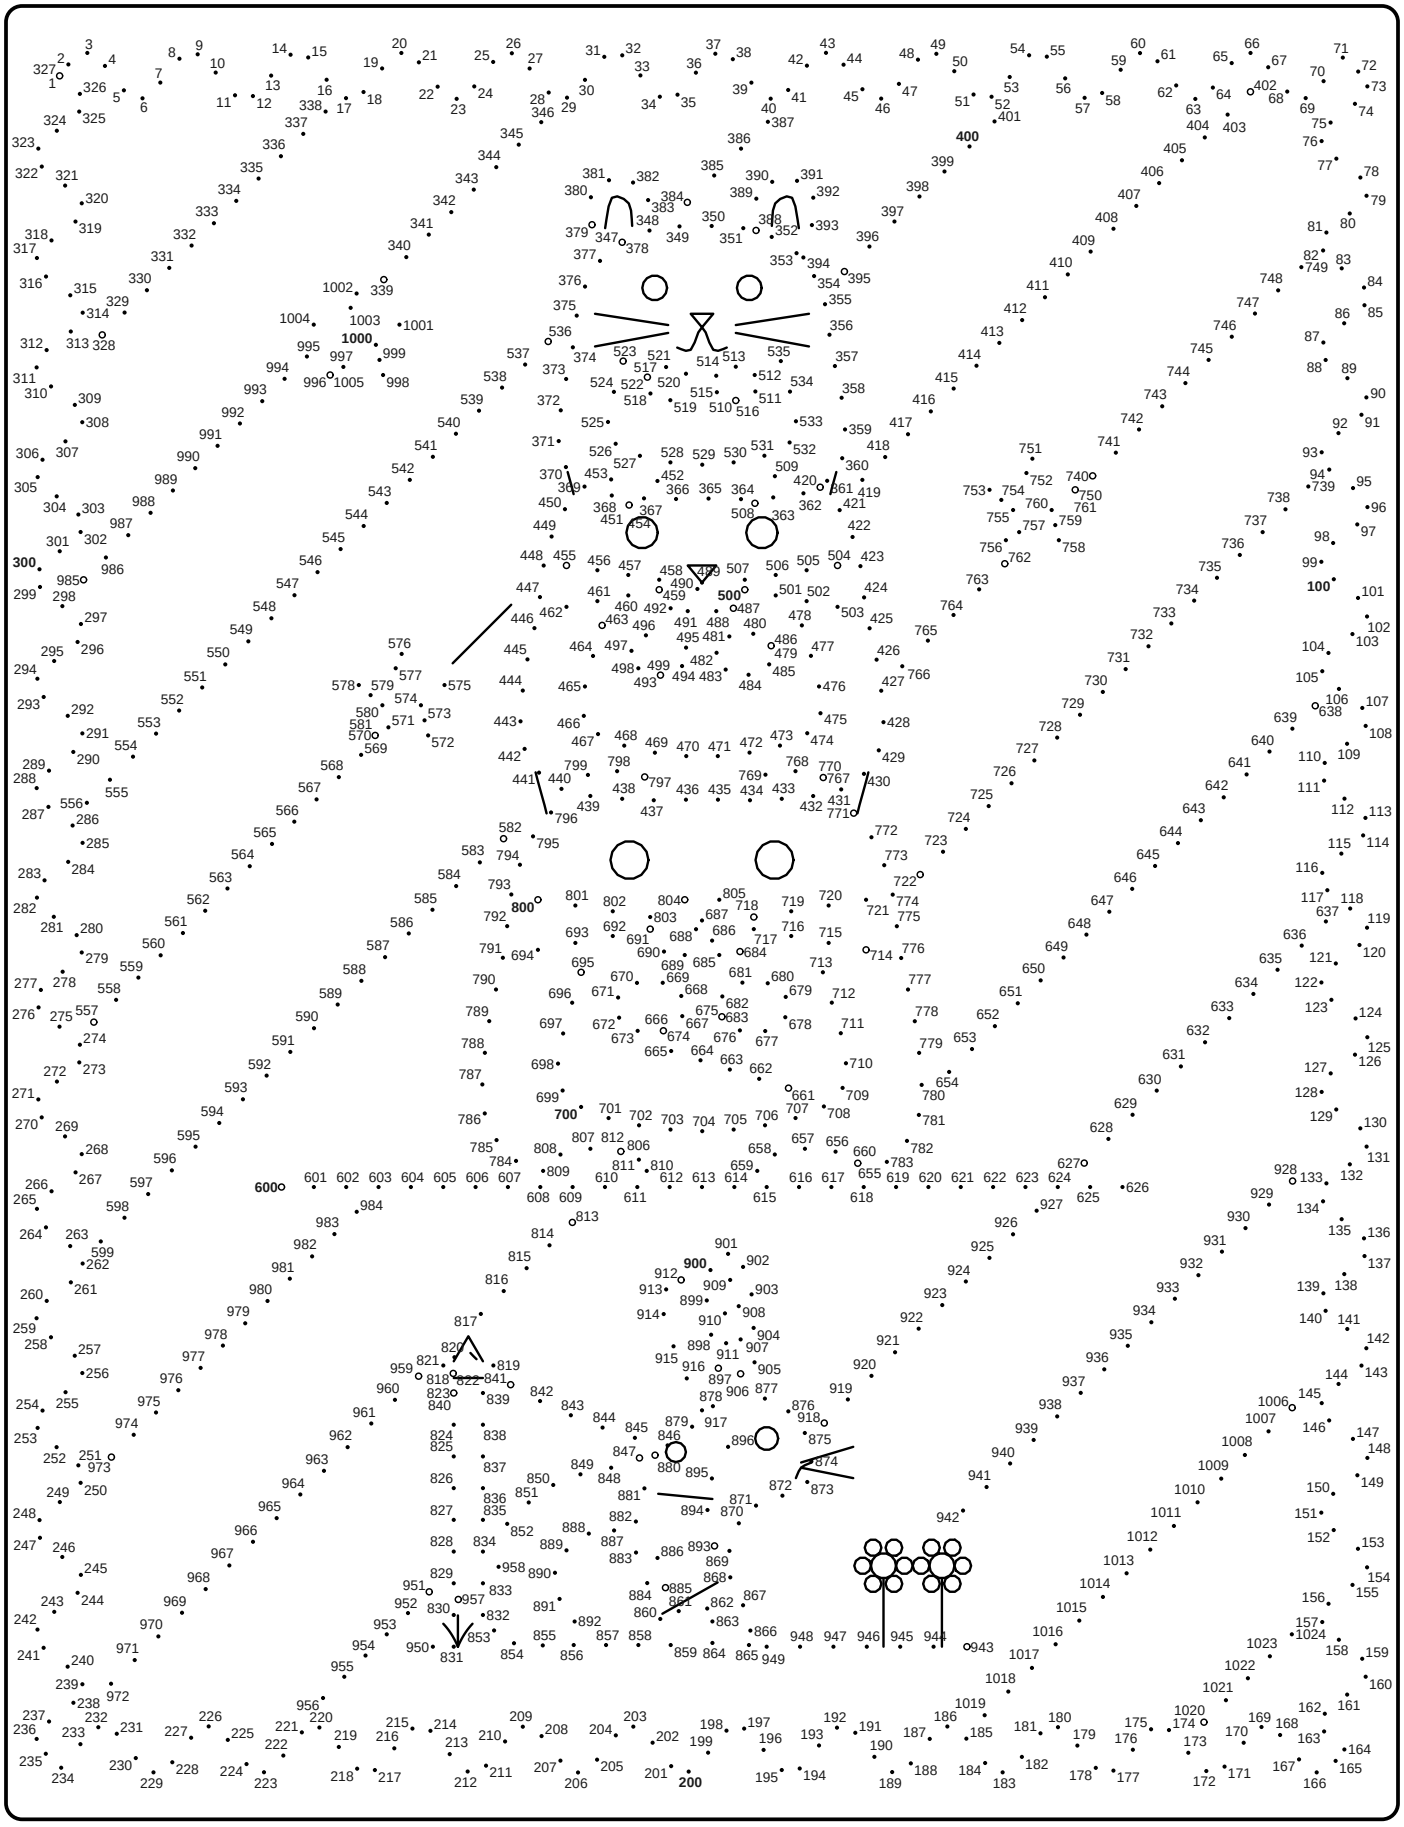

Puzzle

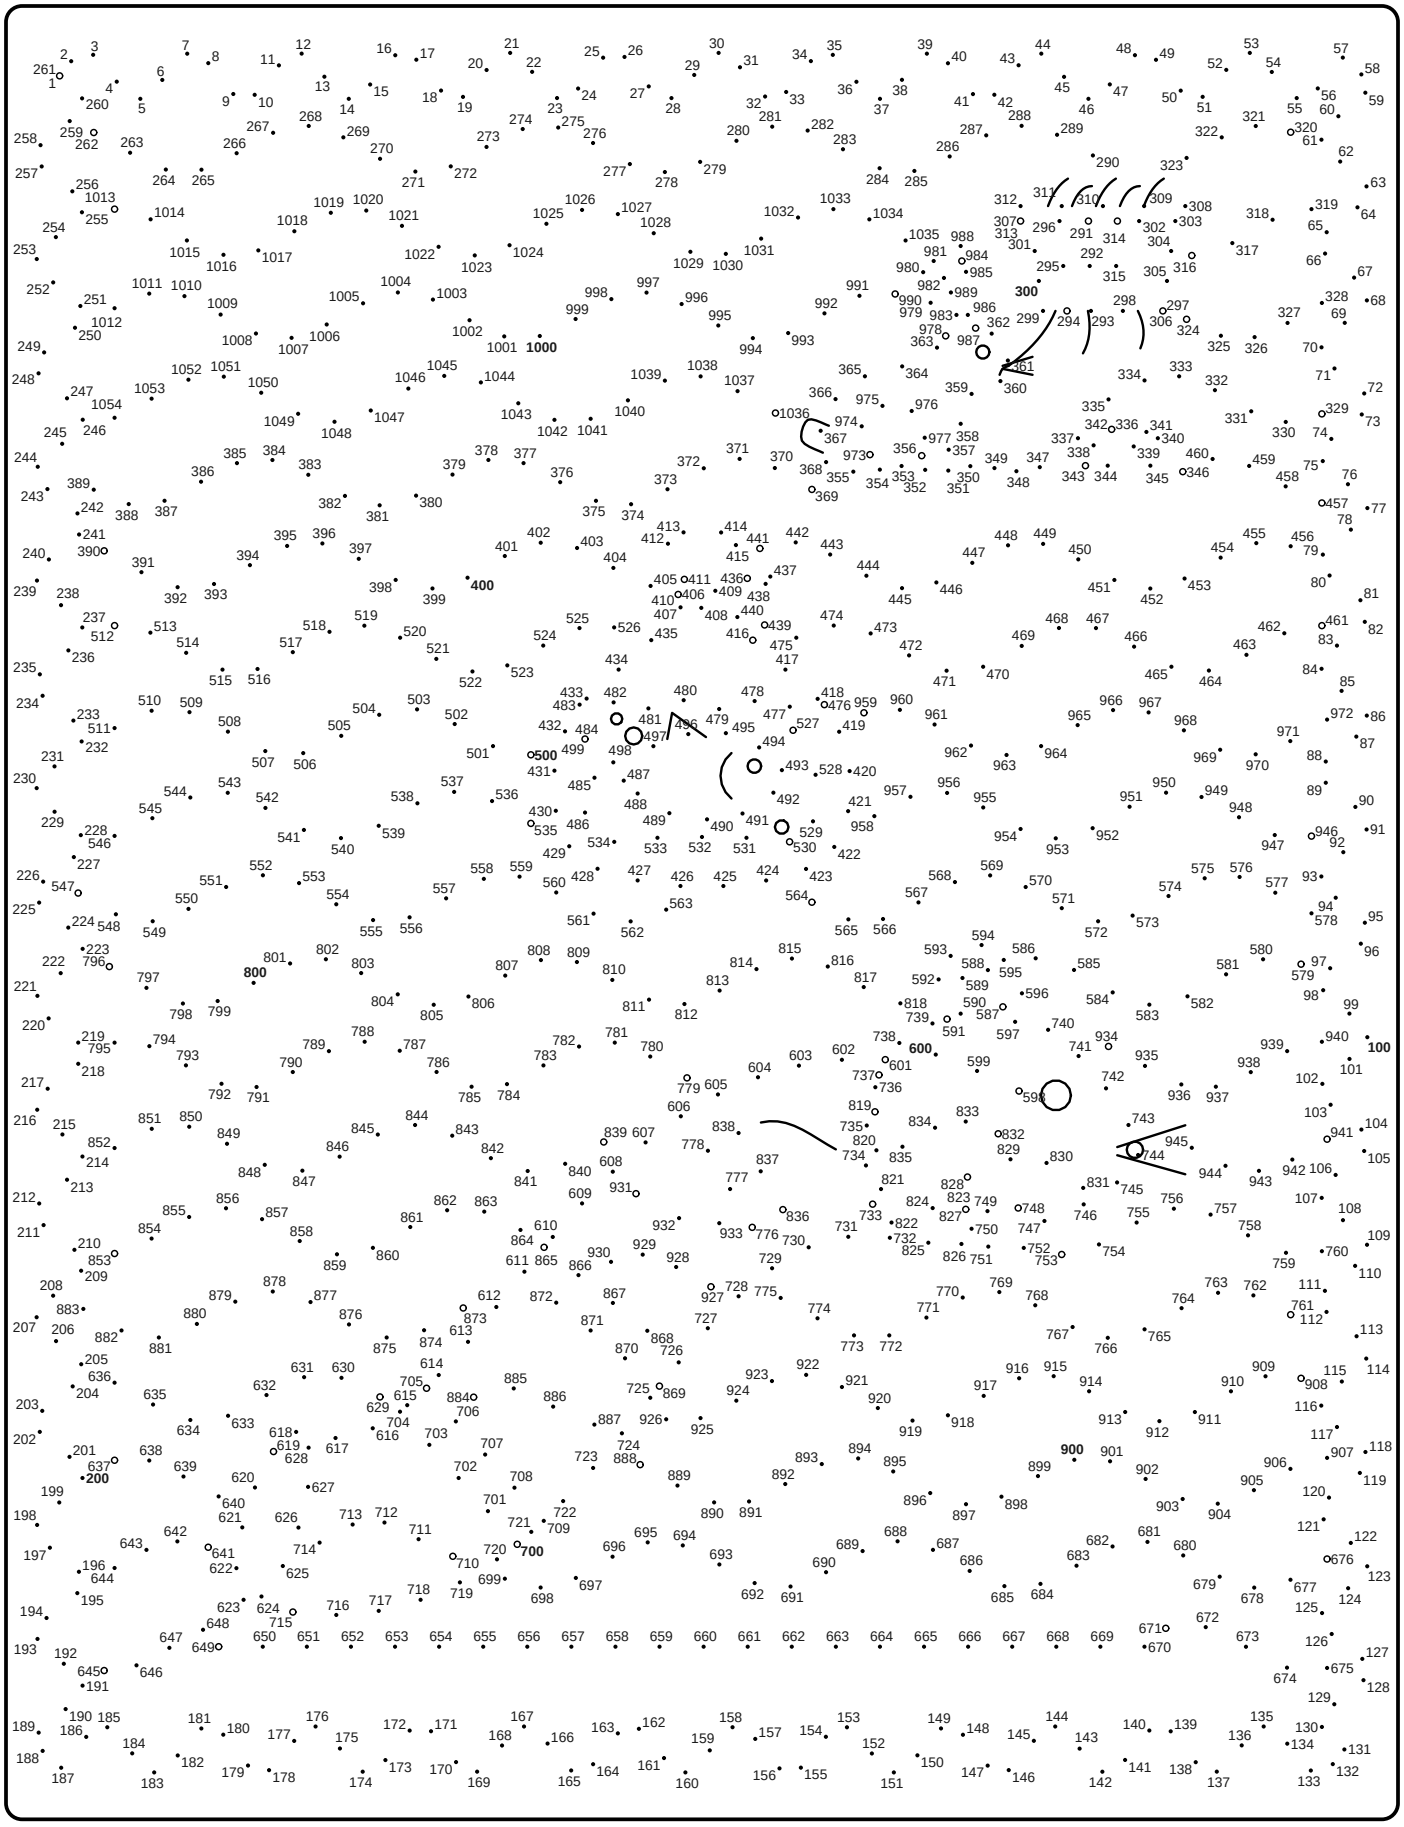

Finished: the window starts at a new hollow circle
