Sunday Lazy Morning

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

A lazy Sunday with nowhere to be: sleeping in on the bed, a big stretch on the rug, watching the owner's coffee, a quick sniff around the yard and a nap in a patch of sun.

TIMELINE

0-5s	Sleeping in
5-10s	Big stretch
10-15s	Coffee company
15-20s	Lazy yard sniff
20-25s	Sunbeam nap

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Sleeping in): Bedroom, late Sunday morning, grey daylight through half-closed blinds, rumpled white sheets and a blue blanket. Camera is the owner's point of view lying in bed. The dog is stretched out across the bottom of the bed with its head on the blanket. It opens one eye, looks at the camera, sighs and closes it again. Sound: quiet room, a long doggy sigh, owner whispering "same, buddy". 5-10s (Big stretch): Bedroom floor next to the bed, soft morning daylight from the window, a worn grey rug on wood floorboards, a pair of slippers by the dresser. The dog climbs down from the bed, pushes its front legs forward into a long stretch with its rear in the air, then shakes its whole body so its collar rattles. Sound: floorboards creaking, a squeaky yawn, collar tag rattling. 10-15s (Coffee company): Living room, mid-morning, overcast daylight through a big window, a brown fabric couch with a crumpled throw blanket. The owner's hand holds a plain white coffee mug on their knee. The dog walks over, rests its chin on the owner's other knee and looks up with heavy, sleepy eyes while the owner scratches its head. Sound: a mug set on a side table, soft breathing, owner saying "no plans today". 15-20s (Lazy yard sniff): Small backyard, cool cloudy morning, damp patchy grass, a wooden fence and a plastic patio chair. The owner stands on the back step in pajama pants and slippers. The dog wanders across the grass at an easy pace, nose low, sniffing along the fence line, then lifts its head and looks back toward the house. Sound: birds, a distant lawn mower, the dog sniffing, slippers scuffing on concrete. 20-25s (Sunbeam nap): Living room floor, late morning, a patch of pale sunlight falling through the window onto the light wood floor beside the couch. The dog walks into the sunny patch, circles twice, flops down on its side with a heavy thump and stretches its legs out, eyes slowly closing as its ribs rise and fall. Sound: a thump on the floor, a big content groan, a clock ticking.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
