My Cleaning Day Helper

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

Saturday house cleaning with a helper who helps with nothing: following the duster, walking across the freshly mopped floor, stealing a rag, chasing the rug outside and napping in the clean living room.

TIMELINE

0-5s	Following the duster
5-10s	Mopped floor prints
10-15s	Stealing the rag
15-20s	Chasing the rug
20-25s	Clean room nap

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Following the duster): Living room, Saturday morning, bright overcast daylight from the window, a wooden bookshelf and a TV stand with the screen off. The owner's hand moves a fluffy grey duster along the shelf. The dog stands right beside the owner's legs, following the duster with its eyes and sniffing the air each time it moves. Sound: duster swishing, tags jingling, owner saying "you're not helping". 5-10s (Mopped floor prints): Kitchen, late morning daylight, shiny wet beige tile floor that was just mopped, a yellow mop bucket pushed into the corner. The dog walks straight across the wet floor toward the camera, leaving a trail of muddy paw prints on the clean tiles, then sits and looks up wagging its tail. Sound: paws squeaking on wet tile, owner groaning "seriously?". 10-15s (Stealing the rag): Kitchen doorway, daylight from the back door window, beige tile and a wood floor hallway. A blue cleaning rag hangs off the edge of the counter. The dog grabs the corner of the rag in its mouth, pulls it down and trots away into the hallway with it, tail high and wagging. Sound: claws clicking, owner laughing "hey, bring that back". 15-20s (Chasing the rug): Back patio, overcast midday, grey concrete slabs, patchy grass beyond and a wooden fence. The owner holds a small striped doormat and shakes the dust out of it. The dog bounces around the owner's legs, play-bowing and snapping playfully at the flapping corner of the mat, tail wagging fast. Sound: mat flapping, a playful bark, owner laughing, birds. 20-25s (Clean room nap): Living room, afternoon daylight, freshly vacuumed beige carpet with neat lines, couch cushions straightened, a basket of folded throw blankets. The dog lies stretched out in the middle of the clean carpet, a little tuft of loose fur already on the floor beside it, eyes half closed. Sound: quiet room, a deep sigh, owner saying "and the fur is back".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Following the duster

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. Living room, Saturday morning, bright overcast daylight from the window, a wooden bookshelf and a TV stand with the screen off. The owner's hand moves a fluffy grey duster along the shelf. The dog stands right beside the owner's legs, following the duster with its eyes and sniffing the air each time it moves. Sound: duster swishing, tags jingling, owner saying "you're not helping".

Clip 2 | 5-10s | Mopped floor prints

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
