Bedtime Story Buddy

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

The kids' bedtime routine with their furry guard: getting in position by the bed, listening to the story, a huge yawn, goodnight ear scratches and his post across the doorway.

TIMELINE

0-5s	Getting in position
5-10s	Story listening
10-15s	Big yawn
15-20s	Goodnight scratches
20-25s	Doorway guard

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Getting in position): Child's bedroom at night, a small bedside lamp giving ordinary warm light, a twin bed with a star-patterned blanket, toys in a basket. A girl of about six in pajamas pats the side of the bed. The dog walks in and lies down on the soft rug right beside her bed. Sound: girl saying "come here, story time", a soft thump on the rug. 5-10s (Story listening): Same child's bedroom at night, warm bedside lamp light. A parent sits on the edge of the bed holding an open picture book with the pages facing away from the camera. The dog rests its chin on the edge of the mattress next to the girl and listens, ears twitching at the parent's voice. Sound: parent reading softly, pages turning, the dog breathing. 10-15s (Big yawn): Child's bedroom at night, lamp light, star blanket pulled up to the girl's chin. The dog, still lying by the bed, opens its mouth in a huge squeaky yawn, shakes its head a little and settles its chin back on its paws while the girl giggles. Sound: a squeaky yawn, the girl giggling, parent whispering "he's sleepy too". 15-20s (Goodnight scratches): Child's bedroom at night, dim lamp light, the parent's arm visible turning down the blanket. The girl reaches her small hand over the edge of the bed and gently scratches behind the dog's ear. The dog leans into her hand and closes its eyes, tail thumping softly on the rug. Sound: tail thumping, the girl whispering "goodnight", lamp click. 20-25s (Doorway guard): Upstairs hallway at night, the bedroom lamp off, only a small plug-in night light near the floor and light from the stairs. The bedroom door is half open. The dog lies stretched across the doorway on the hallway carpet, head up for a moment, then lays it down facing the girl's bed. Sound: quiet house, a soft sigh, parent whispering "good boy".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Getting in position

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. Child's bedroom at night, a small bedside lamp giving ordinary warm light, a twin bed with a star-patterned blanket, toys in a basket. A girl of about six in pajamas pats the side of the bed. The dog walks in and lies down on the soft rug right beside her bed. Sound: girl saying "come here, story time", a soft thump on the rug.

Clip 2 | 5-10s | Story listening

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
