Making the Bed Is Impossible

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

Trying to make the bed with a German Shepherd in the room: jumping on the fresh sheet, hiding under it, stealing a pillow, rolling on the comforter and finally owning the bed.

TIMELINE

0-5s	Jumping on the sheet
5-10s	Under the sheet
10-15s	Pillow thief
15-20s	Comforter roll
20-25s	He wins

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Jumping on the sheet): Bedroom, mid-morning, plain daylight through white curtains, a bare mattress and a laundry basket of clean sheets on the floor. The owner's hands spread a light blue fitted sheet over the mattress. The dog jumps straight onto the bed in the middle of it and stands there wagging. Sound: sheet rustling, a thump on the mattress, owner saying "no, no, no". 5-10s (Under the sheet): Same bedroom, morning daylight. The owner has thrown a flat white sheet over the bed and the dog is underneath it, a big moving lump in the middle. Its nose and one ear poke out from the edge of the sheet as it wiggles around, tail sweeping under the fabric. Sound: muffled rustling, owner laughing "where did he go?". 10-15s (Pillow thief): Bedroom, morning daylight, a stack of pillows without cases at the head of the bed. The dog grabs the corner of a pillow in its mouth, hops off the bed and trots toward the hallway dragging it on the wood floor, looking back over its shoulder at the camera. Sound: pillow dragging on wood, claws clicking, owner calling "come back". 15-20s (Comforter roll): Bedroom, late morning daylight, a fluffy grey comforter half spread on the bed. The dog lies on top of it, rolls onto its back with its legs in the air and wiggles side to side, scrunching the comforter into a messy pile under it, mouth open in a happy pant. Sound: comforter rustling, happy grunts, owner sighing loudly. 20-25s (He wins): Bedroom, late morning daylight, the bed finally made with the grey comforter and pillows in a row. The dog is sprawled diagonally across the middle of the freshly made bed, head on the pillows, looking at the camera without moving at all. The comforter is already wrinkled. Sound: quiet room, a content sigh, owner saying "I give up".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Jumping on the sheet

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
