Ice Cube Obsession

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

He loses his mind over ice: running to the freezer sound, catching a tossed cube, chasing one across the tile, crunching on the patio and fishing cubes out of his water bowl.

TIMELINE

0-5s	Freezer alarm
5-10s	Catching a cube
10-15s	Sliding ice chase
15-20s	Patio crunch
20-25s	Water bowl fishing

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Freezer alarm): Kitchen, warm afternoon, bright daylight from the window over the sink, beige tile floor, a stainless steel fridge. The owner's hand opens the freezer drawer and ice rattles. The dog comes skidding around the corner from the hallway and sits right in front of the freezer, staring up, ears forward. Sound: ice rattling, claws skidding on tile, owner laughing "how do you hear that?". 5-10s (Catching a cube): Same kitchen, afternoon daylight, beige tile floor. The owner's hand holds a single ice cube, then gently tosses it. The dog snaps it out of the air, crunches loudly with its head tilted to the side and immediately looks up for another, drool on its chin. Sound: loud crunching, panting, owner saying "one more". 10-15s (Sliding ice chase): Kitchen, afternoon daylight, smooth beige tile floor. An ice cube drops and slides across the tiles under the table. The dog chases it, pokes at it with its nose, pushes it farther with a paw, then pounces and finally scoops it into its mouth. Sound: ice skittering on tile, claws scrabbling, a chomp, owner laughing. 15-20s (Patio crunch): Back patio, hot sunny afternoon, light grey concrete, a striped umbrella and patchy dry grass beyond. The dog lies on the cool shady part of the patio holding a big ice cube between its front paws, licking it and crunching it, a small wet puddle forming on the concrete. Sound: crunching, licking, cicadas buzzing, a neighbor's sprinkler. 20-25s (Water bowl fishing): Kitchen corner, late afternoon daylight, a steel water bowl on a rubber mat with three ice cubes floating in it. The dog dunks its nose into the water trying to grab a cube, the cube bobs away, it tries again, splashing water onto the mat, and finally gets one. Sound: splashing, ice clinking against steel, snorting, owner laughing.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Freezer alarm

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
