Apple Slice Snack Time

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

Sharing an afternoon apple: watching the owner slice it, taking a slice gently, sitting nicely for another, sharing on the back steps with the kids and checking the empty plate.

TIMELINE

0-5s	Slicing watch
5-10s	Gentle take
10-15s	Polite sit
15-20s	Sharing on the steps
20-25s	Empty plate check

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Slicing watch): Kitchen, early autumn afternoon, plain daylight, a wooden cutting board on the counter. The owner's hands cut a red apple into thin slices, putting the core and all the seeds into a small bowl pushed far back on the counter. The dog sits on the beige tile floor, staring up, nose twitching. Sound: knife crunching through apple, owner saying "no seeds for you". 5-10s (Gentle take): Same kitchen, afternoon daylight, beige tile floor. The owner crouches and holds out a single seedless apple slice with no core. The dog stretches forward and takes it very gently with its front teeth, then crunches it with its head tilted, juice on its lips. Sound: crunching, owner saying "gentle, good boy". 10-15s (Polite sit): Kitchen, afternoon daylight, beige tile floor and white cabinets. The owner holds a small plate of seedless apple slices at chest height. The dog sits very straight, front paws together, eyes locked on the plate, a little drool hanging from its lips, tail swishing on the floor. Sound: tail swishing, a tiny whine, owner saying "wait, wait". 15-20s (Sharing on the steps): Back steps of the house, sunny autumn afternoon, a few fallen leaves on the grass and a wooden fence. A boy of about ten sits on the steps next to a parent, both eating apple slices. The boy holds out a seedless slice and the dog takes it softly and chews beside him. Sound: crunching, the boy laughing, birds, leaves rustling. 20-25s (Empty plate check): Back steps, late afternoon, soft daylight, the empty white plate set down on the concrete step. The dog sniffs every inch of the plate, licks it once, then looks up at the camera and licks its lips, tail wagging slowly as a leaf blows past. Sound: plate scraping on concrete, licking, owner saying "all gone, buddy".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
