He Heard the Treat Bag

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

Testing his super hearing: asleep upstairs when the treat bag crinkles, thundering down the stairs, sliding into a perfect sit, sprinting across the yard and getting tricked by a wrapper.

TIMELINE

0-5s	Ears wake up
5-10s	Down the stairs
10-15s	Perfect sit
15-20s	Yard sprint
20-25s	Wrapper trick

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Ears wake up): Upstairs bedroom, afternoon, dim daylight through closed curtains, a big round dog bed on carpet. The dog is curled up asleep. A faint crinkle comes from downstairs. Its eyes snap open, both ears turn toward the door, and it lifts its head off the bed. Sound: distant bag crinkling, a tag jingle as the head lifts. 5-10s (Down the stairs): Carpeted staircase, afternoon daylight from a window on the landing, family photos on the wall. Camera is at the bottom of the stairs looking up. The dog comes running down the stairs fast, ears back, paws thudding on each step, heading straight for the camera. Sound: heavy thudding paws, tags jingling, owner laughing. 10-15s (Perfect sit): Kitchen, afternoon daylight, shiny light wood floor. The owner's hand holds a small crinkly treat bag. The dog slides across the floor on the turn, catches itself and drops into a perfect sit in front of the owner, staring at the bag, ears forward. Sound: claws sliding on wood, bag crinkling, owner saying "wow, fast". 15-20s (Yard sprint): Backyard, overcast afternoon, long patchy lawn, a wooden fence and a tree at the far end. The dog is sniffing at the far fence. The owner, standing on the back step, shakes the treat bag once. The dog turns and sprints the whole length of the yard toward the camera. Sound: bag crinkling, paws pounding grass, panting, birds. 20-25s (Wrapper trick): Living room, late afternoon daylight, a brown couch. The owner crinkles an empty plastic wrapper. The dog runs in and sits, then sniffs the wrapper, tilts its head and stares at the owner. The owner laughs and hands it a real treat from their pocket. Sound: wrapper crinkling, a quiet huff, owner laughing "okay, here's a real one".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Ears wake up

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
