Cozy Night When the Power Went Out

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

A stormy night power outage turned cozy: the lights going out, the battery lantern coming on, a blanket fort on the floor, a flashlight trip to the kitchen and falling asleep together.

TIMELINE

0-5s	Lights out
5-10s	Lantern on
10-15s	Blanket nest
15-20s	Flashlight kitchen trip
20-25s	Sleeping together

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Lights out): Living room at night during a rainstorm, the lamps suddenly go dark and only the owner's phone flashlight lights the room. The dog, lying on the rug, lifts its head and looks around, ears up, its eyes catching the flashlight beam for a moment. Sound: rain on windows, the fridge humming then stopping, owner saying "uh oh". 5-10s (Lantern on): Same living room at night, dark except a small battery camping lantern on the wooden coffee table giving soft warm light. The owner's hand switches the lantern on. The dog walks up to the table and sniffs the lantern, then looks at the camera. Sound: rain, a click, sniffing, owner whispering "see, it's okay". 10-15s (Blanket nest): Living room floor at night, lantern light, a pile of thick blankets and couch cushions spread on the rug. Rain streaks the dark window behind. The dog steps onto the blankets, circles, and lies down pressed against the owner's legs, which are wrapped in a fuzzy throw. Sound: heavy rain, distant thunder rumble, blankets rustling. 15-20s (Flashlight kitchen trip): Dark kitchen at night, only a flashlight beam moving across the tile floor and cabinets. The dog follows the beam closely beside the owner's legs. The owner's hand opens a cabinet, takes out a dog biscuit and the dog takes it gently in the flashlight beam. Sound: rain, cabinet creaking, crunching, owner whispering "midnight snack". 20-25s (Sleeping together): Living room floor late at night, the battery lantern turned low on the coffee table, warm dim light. The dog is curled up asleep on the blanket pile, its back against the owner's side, a corner of the fuzzy throw over its shoulders, ribs slowly rising and falling. Sound: soft rain, gentle snoring, a quiet sigh.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Lights out

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. FACEBOOK CAPTION

The power went out for 4 hours.
Honestly one of our best nights.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
