The Dinner Stare Down

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

Dinner with an audience: the chin on the knee, switching to an easier target, the slow paw lift, staring from the doorway when sent away and finally getting his own plain green beans.

TIMELINE

0-5s	Chin on knee
5-10s	Easier target
10-15s	Slow paw lift
15-20s	Doorway stare
20-25s	His own beans

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Chin on knee): Dining room, evening, a warm ceiling lamp over a wooden table, a plate of grilled chicken and green beans in front of the owner. Camera is the owner's point of view. The dog sits beside the chair with its chin resting on the owner's knee, staring up without blinking. Sound: fork on plate, owner saying "don't look at me like that". 5-10s (Easier target): Same dining room, evening lamp light, wooden table with two plates. The dog walks around the table and sits next to the partner's chair instead, staring up at their plate with big eyes, tilting its head slightly and licking its nose once. Sound: partner laughing "nope, not me either", forks clinking. 10-15s (Slow paw lift): Dining room, evening lamp light, wooden floor under the table. The dog sits next to the owner's chair and very slowly lifts one front paw and rests it on the owner's thigh, still staring, a thin line of drool hanging from its lip. Sound: quiet chewing, owner laughing "wow, the paw". 15-20s (Doorway stare): Dining room doorway, evening, warm lamp light from the dining room, a darker hallway behind. The dog lies in the doorway as told, chin on its paws, but its eyes are still locked on the table, eyebrows moving as it looks from plate to plate. Sound: owner saying "go lie down", a long sigh from the dog. 20-25s (His own beans): Kitchen, evening ceiling light, grey tile floor, his steel bowl. The owner's hand drops a few plain unseasoned green beans that were set aside before cooking into the bowl. The dog eats them quickly, crunching, licks the bowl and looks up wagging. Sound: beans clinking in the bowl, crunching, owner saying "you earned it".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Chin on knee

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. Dining room, evening, a warm ceiling lamp over a wooden table, a plate of grilled chicken and green beans in front of the owner. Camera is the owner's point of view. The dog sits beside the chair with its chin resting on the owner's knee, staring up without blinking. Sound: fork on plate, owner saying "don't look at me like that".

Clip 2 | 5-10s | Easier target

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
