Spa Day at Home

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

A full pampering day at home: a brushing session on the patio, a paw balm massage, a gentle ear cleaning, a careful nail trim and a nap on a fresh fluffy blanket.

TIMELINE

0-5s	Patio brushing
5-10s	Paw balm massage
10-15s	Ear cleaning
15-20s	Nail trim
20-25s	Blanket nap

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Patio brushing): Back patio, mild sunny morning, grey concrete, potted plants and a wooden fence behind. The dog stands calmly while the owner's hand runs a wide grooming brush down its back. Tufts of loose undercoat float off and collect on the concrete. Sound: brush swishing, birds, owner saying "look at all this fur". 5-10s (Paw balm massage): Living room, late morning daylight, the dog lying on its side on a soft grey rug. The owner's fingers gently rub a small amount of paw balm into the pads of one front paw. The dog lies relaxed, eyes half closed, letting the paw rest in the owner's hand. Sound: quiet room, a relaxed sigh, owner saying "so fancy". 10-15s (Ear cleaning): Living room, daylight from the window, grey rug. The owner holds a soft cotton pad and gently wipes the inside of one upright ear. The dog leans its head into the owner's hand, then shakes its head when finished, ears flapping and collar rattling. Sound: ear flapping, collar rattling, owner laughing "all clean". 15-20s (Nail trim): Living room, afternoon daylight, the dog lying calmly on the rug. The owner's hand holds one back paw and carefully trims the very tip of a single nail with dog nail clippers, then immediately offers a small treat, which the dog takes gently. Sound: a small click, crunching, owner saying "good boy, one more". 20-25s (Blanket nap): Bedroom, late afternoon, soft daylight through sheer curtains, a fresh fluffy white blanket spread on the floor beside the bed. The dog steps onto the blanket, circles, and settles down with a long sigh, its freshly brushed coat looking soft, eyes slowly closing. Sound: quiet room, a long content sigh, owner whispering "spa day complete".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Patio brushing

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
