Foggy Morning Walk

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

An early walk through thick fog: waiting at the open door, trotting down the misty street, sniffing dewy grass, staring at a jogger appearing out of the fog and a towel rub back home.

TIMELINE

0-5s	Waiting at the door
5-10s	Into the fog
10-15s	Dewy grass sniff
15-20s	Shape in the fog
20-25s	Towel rub at home

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Waiting at the door): Front hallway of a small house, early morning, dim grey daylight coming through the open front door, thick white fog outside, sneakers and a doormat on the wood floor. The dog stands in the doorway with the leash clipped on, tail wagging slowly, looking out into the fog and then back at the camera. Sound: quiet street, tags jingling, owner whispering "it's so foggy, buddy". 5-10s (Into the fog): Quiet residential street, early morning, thick fog, flat grey light, streetlights still faintly on, parked cars fading into white a few houses away. The dog trots on a loose leash a little ahead of the owner along the damp sidewalk, its outline soft against the fog, nose down along the curb. Sound: footsteps on wet concrete, tags jingling, a car passing far away. 10-15s (Dewy grass sniff): Edge of a small neighborhood park, foggy morning, grey diffused light, long uncut grass heavy with dew, a wooden bench half hidden in the mist. The dog pushes its nose deep into the wet grass and sniffs along slowly, tiny water drops collecting on its muzzle and whiskers, then sneezes once. Sound: sniffing, a small sneeze, birds starting to chirp, owner laughing quietly. 15-20s (Shape in the fog): Paved park path, foggy morning, soft grey light, trees fading into white mist. The dog suddenly stops, ears pointed forward, staring down the path as a single jogger slowly appears out of the fog and passes at a calm distance. The dog watches, gives one low woof, then relaxes and wags. Sound: jogger's footsteps, one low woof, owner says "it's just a runner". 20-25s (Towel rub at home): Back in the front hallway, morning, grey daylight from the small window by the door, shoes by the wall, a rubber doormat. The owner's hands rub the dog's damp back and legs with an old blue towel while the dog leans into it, eyes half closed, then shakes off the last bit of moisture. Sound: towel rubbing, tags rattling during the shake, a happy sigh.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Waiting at the door

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. Front hallway of a small house, early morning, dim grey daylight coming through the open front door, thick white fog outside, sneakers and a doormat on the wood floor. The dog stands in the doorway with the leash clipped on, tail wagging slowly, looking out into the fog and then back at the camera. Sound: quiet street, tags jingling, owner whispering "it's so foggy, buddy".

Clip 2 | 5-10s | Into the fog

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
