# Crossing the River on Our Hike

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

## VIDEO IDEA

A hike that reaches a shallow, calm river: arriving at the bank, testing the water with a paw, wading across beside the owner, sniffing the pebbles on the far side and trotting on, dripping.

## TIMELINE

| | |
|---|---|
| **0-5s** | Reaching the bank |
| **5-10s** | Testing the water |
| **10-15s** | Wading across |
| **15-20s** | Pebble bank sniff |
| **20-25s** | Back on the trail |

## FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Reaching the bank): Forest hiking trail opening onto a river bank, late morning, bright sunny daylight with some shade from trees, grey pebbles and roots underfoot. The dog trots ahead down the dirt path toward the wide, shallow, calm river, stops at the edge of the pebbles and looks back at the owner, tail wagging. Sound: gentle water running, birds, footsteps on gravel, panting. 5-10s (Testing the water): Edge of the shallow river, sunny late morning, clear calm water over smooth stones, only a few centimeters deep at the edge. The dog lowers its nose to sniff the water, then carefully lifts one front paw and puts it into the water, pulls it back, then steps in with both front paws. Sound: soft trickle of water, a small splash, owner says "it's okay, come on". 10-15s (Wading across): Middle of the shallow calm river, sunny daylight, clear water barely reaching the dog's ankles, stones visible on the bottom, trees on the far bank. The dog wades steadily across right beside the owner's hiking boots, on a loose leash, lifting its paws high with each step and splashing a little. Sound: boots and paws splashing, gentle flowing water, owner says "good job". 15-20s (Pebble bank sniff): Far side of the river, sunny late morning, a wide pebble bank with a few pieces of pale driftwood and tufts of grass. The dog steps out of the water dripping and starts sniffing the warm pebbles and a piece of driftwood, tail wagging, legs and belly wet and dark. Sound: water dripping, pebbles crunching, sniffing, river in the background. 20-25s (Back on the trail): Dirt hiking trail leading up from the river into the trees, sunny daylight with patches of shade, ferns along the path. The dog trots up the trail ahead of the owner with wet legs leaving damp paw prints in the dust, stops for a quick shake, then keeps going, glancing back. Sound: tags rattling during the shake, footsteps, birds, owner laughing.

## AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

## CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

### Clip 1 | 0-5s | Reaching the bank

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. Forest hiking trail opening onto a river bank, late morning, bright sunny daylight with some shade from trees, grey pebbles and roots underfoot. The dog trots ahead down the dirt path toward the wide, shallow, calm river, stops at the edge of the pebbles and looks back at the owner, tail wagging. Sound: gentle water running, birds, footsteps on gravel, panting.

### Clip 2 | 5-10s | Testing the water

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog trots up the trail ahead of the owner with wet legs leaving damp paw prints in the dust, stops for a quick shake, then keeps going, glancing back. Sound: tags rattling during the shake, footsteps, birds, owner laughing.

## FACEBOOK CAPTION

He thought about it for a second.
Then walked through it like a pro. Brave boy.

## HOW TO MAKE IT LOOK REAL

| | |
|---|---|
| **Use a real photo** | Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips. |
| **Make 5 short clips** | Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead. |
| **Pick the most natural** | Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face. |
| **Keep the real sound** | Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath. |
| **No filters** | Do not add filters, slow motion or fancy transitions - real home videos don't have them. |
