Sunflower Field Walk

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

A late summer walk at a sunflower farm: walking the dirt path between rows, sniffing a fallen flower head, sitting for a photo, watching a bee and a water break at the car.

TIMELINE

0-5s	Between the rows
5-10s	Fallen flower sniff
10-15s	Photo sit
15-20s	Watching a bee
20-25s	Water at the car

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Between the rows): Sunflower farm, late summer afternoon, warm natural sunlight, a narrow dirt path between rows of tall sunflowers taller than the owner. The dog walks along the path on a loose leash ahead of the camera, nose down, tail up, big yellow flowers on both sides moving gently in the breeze. Sound: breeze through leaves, bees buzzing, footsteps on dry dirt, tags jingling. 5-10s (Fallen flower sniff): Same sunflower path, sunny afternoon, dry cracked dirt, a broken sunflower head lying on the ground. The dog stops and sniffs the large flower head carefully, nudges it with its nose so it rolls a little, then sniffs again, ears forward and tail wagging slowly. Sound: sniffing, rustling leaves, owner chuckling "that one fell off". 10-15s (Photo sit): Open spot in the sunflower field, sunny afternoon, rows of tall yellow sunflowers behind. The dog sits on the dirt path facing the camera, panting with its tongue out, looking just off to the side, then looks right at the camera when the owner calls, ears perked up. Sound: owner saying "sit, look here, good boy", panting, bees. 15-20s (Watching a bee): Edge of a sunflower row, sunny afternoon, a big flower bent low near the dog's head height. The dog watches a single bee moving over the flower, head turning to follow it, then calmly steps back a little and keeps watching from a distance with its ears forward. Sound: bee buzzing, breeze, owner says "leave the bee alone". 20-25s (Water at the car): Gravel parking area next to the sunflower field, late afternoon, warm sunlight, a silver hatchback with the rear open. The dog stands on the gravel and drinks from a steel bowl the owner set down by the bumper, water dripping from its chin, then jumps into the back of the car. Sound: lapping water, gravel crunching, the car rocking slightly as he jumps in.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Between the rows

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. FACEBOOK CAPTION

I wanted a cute photo in the sunflowers.
He wanted to sniff every single one first.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
