Countryside Village Walk

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

A slow walk through a small country village: down the lane past stone cottages, sniffing a flower pot, a pat from a neighbor over a gate, resting by a bench and a drink from a cafe bowl.

TIMELINE

0-5s	Down the lane
5-10s	Flower pot sniff
10-15s	Gate greeting
15-20s	Bench rest
20-25s	Cafe water bowl

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Down the lane): Narrow lane in a small country village, mid morning, soft overcast daylight, old stone cottages with wooden doors on both sides, a low stone wall with ivy. The dog trots down the middle of the quiet lane on a loose leash ahead of the camera, tail relaxed, looking left and right at the houses. Sound: footsteps on old pavement, birds, a distant church bell, tags jingling. 5-10s (Flower pot sniff): Doorstep of a stone cottage in the village, overcast morning, a big clay pot with red geraniums next to a green wooden door. The dog stops and sniffs the base of the flower pot carefully, moving its nose around it, then lifts its head and sniffs the air near the door. Sound: sniffing, a quiet breeze, owner says "come on, nosy". 10-15s (Gate greeting): Front garden of a village cottage, overcast daylight, a low white wooden gate and a small lawn. An older man's hand reaches over the gate and pats the dog's head while the dog stands with its front feet on the ground, tail wagging, leaning its head into his hand. Sound: older man chuckling "lovely dog", tags jingling, birds. 15-20s (Bench rest): Small village square, late morning, overcast daylight, cobblestone ground, a weathered wooden bench under a big tree. The dog lies down on the cool stones beside the owner's legs at the bench, head up, calmly watching a bicycle roll by at the far side of the square. Sound: bicycle bell far away, pigeons cooing, quiet chatter in the distance. 20-25s (Cafe water bowl): Outside a small village cafe, late morning, overcast daylight, a few metal tables on the pavement and a steel water bowl by the door. The dog walks up to the bowl and drinks noisily, splashing a few drops on the stones, then looks up at the camera with water dripping from its chin. Sound: lapping water, cups clinking inside, owner says "thirsty, huh?".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

FACEBOOK CAPTION

Everyone in this village said hi to him.
Nobody said hi to me. Is it the same where you live?

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
