Weekend at the Mountain Cabin

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

A weekend at a small mountain cabin: jumping out of the car, inspecting the porch, enjoying the view from the deck, resting by the wood stove and waking up on the rug.

TIMELINE

0-5s	Arrival
5-10s	Porch inspection
10-15s	Deck view
15-20s	By the wood stove
20-25s	Lazy cabin morning

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Arrival): Gravel driveway beside a small wooden cabin, cool morning, bright overcast mountain light, tall pine trees all around. The rear door of an SUV is open and the dog jumps down onto the gravel, immediately puts its nose to the ground and sniffs in a quick circle, tail wagging hard. Sound: car door, gravel crunching, wind in the pines, owner says "we're here". 5-10s (Porch inspection): Front porch of the wooden cabin, morning daylight, weathered plank floor, a wooden rocking chair and a stack of firewood against the wall. The dog walks slowly along the porch sniffing the boards, the firewood and the legs of the rocking chair, its claws clicking on the wood. Sound: claws on wood, sniffing, birds, a wind chime. 10-15s (Deck view): Back deck of the cabin, late afternoon, natural daylight, wooden railing, green mountain slopes and pine forest in the distance. The dog lies on the deck boards facing the view, front paws crossed, the breeze moving the fur on its neck, then turns its head to look at the camera. Sound: wind, distant birds, the dog's relaxed breathing. 15-20s (By the wood stove): Inside the cabin at night, warm light from two table lamps, wooden walls, a black cast iron wood stove with its glass door closed and a small fire inside, a braided rug in front of it at a safe distance. The dog lies stretched out on the rug, eyes half closed. Sound: fire crackling softly, the dog sighing, quiet voices. 20-25s (Lazy cabin morning): Cabin bedroom, early morning, pale daylight through a small window with plaid curtains, pine floorboards, a rumpled bed. The dog is curled up on a rug beside the bed, lifts its head when the owner's socked feet touch the floor, stretches its front legs and yawns widely. Sound: floorboards creaking, a big yawn, tags jingling, birds outside.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Arrival

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
