Waterfall Hike

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

A hike to a waterfall: climbing the rocky trail, crossing a footbridge, reaching the falls, drinking from the calm edge of the pool and resting on a flat rock.

TIMELINE

0-5s	Rocky trail climb
5-10s	Footbridge
10-15s	At the falls
15-20s	Pool edge drink
20-25s	Rock rest

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Rocky trail climb): Forest hiking trail, mid morning, overcast daylight, damp rocks and tree roots forming natural steps, green ferns along both sides. The dog climbs up the rocky steps ahead of the owner on a loose leash, hopping from rock to rock, stopping at the top to look back and wait. Sound: heavy breathing, boots on rock, running water somewhere ahead. 5-10s (Footbridge): Small wooden footbridge over a narrow creek in the forest, overcast daylight, wet moss on the planks, wooden railings on both sides. The dog walks across the bridge beside the owner, stops halfway to sniff a railing post, then keeps going, claws tapping on the boards. Sound: creek rushing below, claws on wood, owner says "almost there". 10-15s (At the falls): Rocky viewpoint near a waterfall, late morning, overcast daylight, white water falling into a pool, a light mist in the air, wet dark rocks. The dog stands on leash beside the owner's legs at a safe distance from the edge, ears back a little from the noise, watching the falling water. Sound: loud rushing waterfall, owner shouting over it "look at that". 15-20s (Pool edge drink): Calm shallow edge of the waterfall pool, overcast daylight, smooth flat stones, clear still water far from the falling water. The dog steps onto the flat stones and laps from the calm shallow water, its front paws just wet, water dripping from its chin between sips. Sound: lapping water, waterfall roaring in the background. 20-25s (Rock rest): Large flat rock near the waterfall pool, midday, overcast daylight, the owner's green backpack and a water bottle on the rock. The dog sits on the rock beside the backpack, panting with its tongue out, wet paws leaving dark marks on the stone, then lies down with its chin on its paws. Sound: waterfall in the background, panting, a zipper on the backpack.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Rocky trail climb

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. FACEBOOK CAPTION

Two miles uphill for this view.
He enjoyed it way more than my legs did.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
