Pumpkin Patch Day

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

A day at the pumpkin patch: wandering between pumpkins, sniffing a huge one, sitting by a hay bale for a photo, walking beside a kid with a wagon and checking the pumpkin at home.

TIMELINE

0-5s	Patch wandering
5-10s	Giant pumpkin sniff
10-15s	Hay bale photo
15-20s	Wagon buddy
20-25s	Porch pumpkin check

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Patch wandering): Pumpkin patch on a farm, autumn afternoon, overcast daylight, rows of orange pumpkins on dried green and brown vines, straw scattered on the dirt. The dog walks carefully between the pumpkins on a loose leash, stepping over vines, nose down and tail swaying. Sound: footsteps on straw, distant chatter, a crow cawing, tags jingling. 5-10s (Giant pumpkin sniff): Same pumpkin patch, overcast afternoon, a very large pale orange pumpkin sitting on the dirt. The dog walks up to it, sniffs all around the stem and the bumpy side, then steps back and looks at it with its head tilted, ears forward. Sound: sniffing, owner laughing "that one's bigger than you". 10-15s (Hay bale photo): Edge of the pumpkin patch, overcast autumn daylight, a rectangular hay bale with a few small pumpkins set on and around it. The dog sits in front of the hay bale facing the camera, sniffs a pumpkin beside it, then looks at the camera and pants, ears relaxed. Sound: owner saying "stay, stay, good boy", wind, distant voices. 15-20s (Wagon buddy): Dirt path through the pumpkin patch, overcast afternoon. A young girl in a red jacket pulls a small green wagon with one pumpkin in it, her dad walking right beside her. The dog walks calmly on leash beside the wagon at the girl's pace, sniffing the pumpkin now and then. Sound: wagon wheels on dirt, girl giggling, dad saying "he's helping". 20-25s (Porch pumpkin check): Front porch steps of a house, late afternoon, fading natural daylight, the new pumpkin sitting on the top step beside a doormat. The dog climbs the steps, sniffs the pumpkin thoroughly, then lies down on the porch right next to it like he is guarding it. Sound: sniffing, a big sigh, owner says "okay, you can watch it".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Patch wandering

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
