Hot Day at the River

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

Cooling off on a hot summer day at a calm, shallow river: heading down the path, lying in the water, biting splashes, fetching a stick in the shallows and resting in the shade.

TIMELINE

0-5s	Path to the river
5-10s	Belly in the water
10-15s	Biting splashes
15-20s	Shallow stick fetch
20-25s	Shade rest

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Path to the river): Dry sandy path through tall yellow grass leading down to a river, hot summer afternoon, bright harsh sunlight, a few willow trees ahead. The dog trots quickly down the path ahead of the owner, tongue hanging out, heading straight for the water it can see between the trees. Sound: cicadas buzzing, panting, footsteps on sand, owner says "almost there". 5-10s (Belly in the water): Edge of a wide, calm, shallow river, hot sunny afternoon, clear water over sand and small stones, only a few centimeters deep at the edge. The dog wades in and lies down on its belly in the shallow water, legs stretched out, panting, water around its chest. Sound: soft splashing, gentle river flow, panting, owner laughing. 10-15s (Biting splashes): Same shallow river edge, bright sunlight, calm clear water. The owner's hand splashes water toward the dog, and the dog snaps and bites at the flying water drops, jumping a little in the shallow water, water spraying around its face and chest. Sound: splashing, snapping jaws, owner laughing "get it, get it". 15-20s (Shallow stick fetch): Calm shallow part of the river near the bank, sunny afternoon, water only up to the dog's knees, willow branches hanging nearby. The owner tosses a short stick a few meters out, the dog wades and splashes after it, grabs it from the surface and walks back proudly. Sound: splashing, the stick hitting the water, panting, "good boy". 20-25s (Shade rest): Shady spot under a willow tree on the river bank, hot afternoon, bright sun beyond the shade, a striped beach towel and a steel water bowl on the dirt. The dog lies on the towel, wet and sandy, panting slowly, then rests its chin on its front paws. Sound: cicadas, river in the background, slow panting.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Path to the river

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
