Kayak Ride Together

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

A first kayak ride on a calm lake: putting on the life vest, stepping into the kayak, paddling on still water, sniffing the breeze by the lily pads and hopping out back at shore.

TIMELINE

0-5s	Life vest on
5-10s	Into the kayak
10-15s	Calm paddling
15-20s	Lily pad breeze
20-25s	Back on shore

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Life vest on): Grassy lake shore next to a small wooden dock, calm summer morning, soft natural daylight, still water behind. The dog stands still while the owner's hands buckle a bright yellow dog life vest around its chest, tugging the strap to check it, the dog wagging its tail. Sound: buckle clicking, birds, owner says "looking good, captain". 5-10s (Into the kayak): Sandy edge of the calm lake, morning daylight, a red two-person kayak resting in very shallow still water. The dog wearing its yellow life vest steps carefully into the front of the kayak, the boat wobbling a little, then sits down facing forward. Sound: kayak bumping, small splashes, owner says "easy, sit". 10-15s (Calm paddling): Middle of a calm lake, morning, flat still water, green trees on the far shore, soft daylight. Point of view from the back seat of the kayak, the dog sits in the front wearing its yellow life vest, looking out at the water, the paddle dipping in and out on each side. Sound: paddle dripping, soft water sounds, birds across the lake. 15-20s (Lily pad breeze): Quiet corner of the calm lake near lily pads, morning daylight, still water. The dog in its yellow life vest sits in the front of the kayak, nose lifted, sniffing the breeze, then leans its head slightly to look at the lily pads floating beside the boat. Sound: frogs croaking, soft water lapping on the kayak, sniffing. 20-25s (Back on shore): Sandy shore of the lake, late morning, soft daylight, the red kayak pulled up on the sand. The dog in its yellow life vest hops out of the kayak onto the sand, trots a few steps, does a big shake that rattles the vest straps, then looks up at the camera. Sound: paws on sand, tags and straps rattling, owner laughing "good job, captain".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
