My Trail Running Buddy

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

An afternoon trail run together: stretching at the trailhead, running the dirt single track, leading up a hill, a drink at a shallow creek and resting by the car after.

TIMELINE

0-5s	Trailhead stretch
5-10s	Single track run
10-15s	Hill leader
15-20s	Creek drink
20-25s	Post run rest

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Trailhead stretch): Forest trailhead, afternoon, overcast daylight, dirt parking area and a wooden trail post. The owner's legs in running shorts and trail shoes stretch beside the dog, which is clipped to a hands-free leash around the owner's waist, bouncing a little in place and whining to go. Sound: excited whine, birds, owner says "okay, okay, let's go". 5-10s (Single track run): Narrow dirt single track trail through a green forest, afternoon, overcast daylight, roots and small rocks on the path. Point of view of the running owner, the dog runs ahead on the leash with an easy loping stride, ears back, tail out behind it. Sound: running footsteps, heavy breathing, paws thudding on dirt. 10-15s (Hill leader): Uphill section of the forest trail, afternoon, overcast light, dry leaves along the edges. The dog powers up the slope a little ahead, looking back over its shoulder at the owner as if waiting, tongue out, the camera bobbing with the owner's steps. Sound: owner breathing hard, "you're faster than me", panting. 15-20s (Creek drink): Shallow rocky creek crossing the trail, afternoon, overcast daylight, clear water a few centimeters deep over flat stones. The dog stands in the shallow water and drinks eagerly, water dripping from its chin, while the owner's trail shoes rest on a dry rock nearby. Sound: trickling water, loud lapping, owner catching their breath. 20-25s (Post run rest): Dirt parking area at the trailhead, late afternoon, overcast daylight, the shadow of a dusty grey car on the ground. The dog lies in the shade beside the car tire, panting happily with its tongue out, muddy paws, while the owner's hand pats its side. Sound: panting, car keys jingling, owner says "good run, buddy".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Trailhead stretch

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. Forest trailhead, afternoon, overcast daylight, dirt parking area and a wooden trail post. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
