Picking Up the Kids From School

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

Afternoon school pickup: waiting in the back seat, walking up the sidewalk to the gate, a big happy greeting from the kids, walking home beside them and sniffing their backpacks at home.

TIMELINE

0-5s	Back seat wait
5-10s	Sidewalk to the gate
10-15s	Big greeting
15-20s	Walking home
20-25s	Backpack inspection

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Back seat wait): Back seat of a parked car, sunny afternoon, natural daylight, rear window half down, a tree-lined street outside. The dog sits on a blanket on the back seat, looking out the window with ears up, tail thumping on the seat, then looks at the camera from the front seat. Sound: street sounds, tail thumping, owner says "almost time". 5-10s (Sidewalk to the gate): Sidewalk outside a school, sunny afternoon, a green chain-link fence and trees, a few parents standing far apart waiting. The dog walks calmly on leash beside the owner's legs toward the gate, sniffing the grass strip along the curb, tail wagging. Sound: distant school bell, kids' voices far off, footsteps, tags jingling. 10-15s (Big greeting): Outside the school gate, sunny afternoon, a few kids walking out with backpacks. A girl of about eight runs up to the dog, and the dog's whole body wiggles with its tail wagging hard as she kneels and hugs its neck, the dog staying calm on all four feet. Sound: girl squealing "you came!", happy whines, owner laughing. 15-20s (Walking home): Neighborhood sidewalk, sunny afternoon, houses with front lawns, autumn leaves on the ground. The girl and her younger brother walk with their backpacks beside the dog, the owner holding the leash, the dog trotting happily between the kids, looking up at them. Sound: kids chatting about their day, leaves crunching, tags jingling. 20-25s (Backpack inspection): Front hallway at home, late afternoon, natural daylight from the door window, wood floor, two kids' backpacks dropped on the floor and small shoes kicked off. The dog sniffs both backpacks thoroughly, nose pushing into the outside pocket, tail wagging, checking for crumbs. Sound: sniffing, kids laughing "he smells my lunch", a door closing.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

FACEBOOK CAPTION

The kids say the best part of their day is seeing him at the gate.
Honestly, same for him.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
