Babysitting the Toddler

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

My dog's shift as assistant babysitter: watching block stacking, accepting a stuffed toy, walking slowly beside the toddler outside, waiting politely at snack time and a shared nap.

TIMELINE

0-5s	Watching block tower
5-10s	Accepting a toy
10-15s	Slow backyard walk
15-20s	Snack time manners
20-25s	Shared nap

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Watching block tower): Living room, mid-morning daylight from a big window, a soft colorful play rug on light wood floor. A toddler in a striped shirt stacks big plastic blocks while mom sits on the couch behind, her legs visible. The dog lies at the edge of the rug, head up, calmly watching the tower wobble and fall. Sound: blocks clattering, toddler giggling, mom says "uh oh". 5-10s (Accepting a toy): Same living room, morning daylight, play rug. The toddler toddles over holding a small stuffed bear and pushes it toward the dog's face while mom kneels right beside them. The dog stays lying down, sniffs the bear gently, then gives the toddler's hand one soft lick. Sound: toddler babbling, a soft sniff, mom laughing "he says thank you". 10-15s (Slow backyard walk): Fenced backyard, overcast late morning, short green grass with a few bare spots, a plastic slide in the corner. The toddler walks unsteadily across the grass with dad close behind. The dog walks slowly right beside the toddler at the same small pace, stopping whenever the toddler stops. Sound: birds, small footsteps in grass, dad saying "good job, keep going". 15-20s (Snack time manners): Kitchen, midday window light, white tile floor, toddler in a high chair with a few banana slices on the tray. The dog sits next to the high chair looking up hopefully. Mom's hand comes in and gives the dog its own plain dog biscuit, which it takes gently and crunches. Sound: crunching, toddler squealing, mom says "that one is yours, buddy". 20-25s (Shared nap): Living room, early afternoon, curtains half closed, soft dim daylight. The toddler sleeps on the couch tucked against mom, who is reading quietly. The dog lies on the rug directly below them, stretched on its side, slowly breathing, one ear flicking now and then. Sound: quiet house, soft snoring from the dog, a page turning.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
