Tea Party With My Daughter

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

My daughter invited the dog to a tea party: setting the little table, the hat, pretend tea, a biscuit on a tiny plate and the most patient guest flopping down at the end.

TIMELINE

0-5s	Setting the table
5-10s	Wearing the hat
10-15s	Pretend tea
15-20s	Biscuit on a plate
20-25s	Guest flops down

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Setting the table): Kid's bedroom, afternoon daylight through a window with pink curtains, light carpet, a small white plastic table with two little chairs. A young girl sets out a pastel plastic tea set. The dog sits on the carpet beside the table, head level with the tabletop, watching each cup she puts down. Sound: plastic cups clinking, girl humming, tags jingling. 5-10s (Wearing the hat): Same bedroom, afternoon daylight. The girl gently places a floppy pink sun hat on the dog's head. The dog sits still with the hat tipped over one ear, blinks, and lets its tongue slide out while the girl claps her hands. Sound: girl giggling, owner off camera laughing "he looks so fancy". 10-15s (Pretend tea): Kid's bedroom, afternoon light, the small plastic table. The girl tips an empty plastic teapot over a tiny cup and holds the cup up to the dog's nose. The dog sniffs the empty cup politely, then looks at the girl and wags its tail against the carpet. Sound: girl saying "would you like some tea, mister", tail thumping. 15-20s (Biscuit on a plate): Same bedroom, afternoon daylight. The girl places a plain dog biscuit on a little pink plastic plate and holds it out flat. The dog leans forward and carefully picks the biscuit up off the plate with its front teeth, then crunches it, crumbs dropping on the carpet. Sound: crunching, girl squealing "he ate his cookie". 20-25s (Guest flops down): Kid's bedroom, later afternoon light fading slightly. The pink hat has slipped off onto the carpet. The dog lies stretched out beside the little table while the girl sits next to it and pets its side with both hands, tea cups scattered around. Sound: soft panting, girl whispering "best tea party ever".

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
