The Grandkids Are Visiting

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

Grandpa filmed the day the grandkids came over: the driveway welcome, kisses on the porch steps, backyard ball games, lunch with a carrot for the dog and watching them drive away.

TIMELINE

0-5s	Driveway welcome
5-10s	Porch step kisses
10-15s	Backyard ball game
15-20s	Lunch with a carrot
20-25s	Watching them leave

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Driveway welcome): Front yard of a single-story house, sunny morning, concrete driveway and a green lawn. A silver car is parked and two kids run up the path. The dog bounds across the grass to meet them, tail spinning, and wiggles its whole body between them. Sound: car doors closing, kids shouting the dog's name, grandpa laughing. 5-10s (Porch step kisses): Front porch, sunny morning, wooden steps with a potted fern. The two kids sit side by side on the steps and the dog goes back and forth between them, licking their cheeks while they squeal and lean away, giggling. Grandpa's shadow falls across the bottom step. Sound: kids giggling "stop, stop", happy panting, birds. 10-15s (Backyard ball game): Backyard, late morning, bright sun, uneven lawn with a few dandelions and a chain-link fence. Grandpa's legs in khaki shorts are visible from his lawn chair. The older kid throws a red rubber ball and the dog runs after it, the younger kid running behind the dog. Sound: kids laughing, paws on grass, grandpa calling "careful now". 15-20s (Lunch with a carrot): Kitchen, midday daylight through the window, old oak table and linoleum floor. The kids eat sandwiches at the table while the dog sits beside them watching every bite. Grandma's hand holds out a plain baby carrot and the dog takes it gently and crunches it loudly. Sound: loud carrot crunching, kids laughing, grandma says "there you go, sweetheart". 20-25s (Watching them leave): Front porch, early evening, soft fading daylight. The silver car backs out of the driveway. The dog stands at the top of the steps watching it go, ears up, with grandma's hand resting on its head, then it lies down on the porch boards with a sigh. Sound: car engine fading, a long sigh, grandma saying "they'll be back soon".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Driveway welcome

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
